## NOTICE OF PUBLIC PARTICIPATION HEARINGS SAN DIEGO GAS & ELECTRIC COMPANY'S REQUEST TO CHANGE ELECTRIC RATES APPLICATION A.23-01-008

### WHY AM I RECEIVING THIS NOTICE?

San Diego Gas & Electric Company® (SDG&E®) is required to file a General Rate Case (GRC) Phase 2 Application every four years. The focus of a GRC Phase 2 Application is to make changes to rate design and customer class revenue allocation. SDG&E and the California Public Utilities Commission (CPUC) would like to hear from you regarding this application. You are invited to participate in a public forum, also called a Public Participation Hearing (PPH), about SDG&E's 2024 GRC Phase 2 Application. At the public forum, you can make comments and raise concerns with the CPUC's Administrative Law Judge (Judge) who is overseeing this rate change request.

### HOW WILL THE PUBLIC FORUMS BE HELD?

Two days of PPHs will be held as part of a formal proceeding. They will be transcribed and placed into the formal record that the CPUC uses to decide about SDG&E's request. As part of the CPUC's ongoing efforts to provide the greatest access, the November 6 hearings will be held in person and the November 20 hearings will be held virtually.

You can also provide written public comments at any time during the proceeding at [apps.cpuc.ca.gov/c/A2301008](https://apps.cpuc.ca.gov/c/A2301008).

### WHY IS SDG&E REQUESTING IN THIS RATE CHANGE?

This application is part of SDG&E's regular regulatory process directed by the CPUC and proposes no changes to SDG&E's authorized electric revenues. In addition, this application requests no changes to gas rates. SDG&E's requested rate adjustments include, (1) extending the weekday Super Off-Peak Time-of-Use period, the period of the day when SDG&E's Time-of-Use rates are the lowest, to include additional hours from 10am to 2pm year-round; (2) introducing a new rate class for medium-sized commercial customers providing rates that are more aligned with these customers' cost of service; and (3) adopting rates that better reflect the cost of providing service for customers, among other rate design changes.

SDG&E has requested the changes proposed in this application become effective in 2024. If approved as filed, SDG&E customers would see the changes described here.

### HOW COULD THIS AFFECT MY MONTHLY ELECTRIC BILL?

If you receive your electric generation from an Energy Service Provider (ESP) that is not SDG&E, you are considered an "unbundled" customer and only receive electric delivery rates from SDG&E. If SDG&E's request is approved by the CPUC, the average residential monthly bill for a typical unbundled customer using 400 kWh per month would decrease by approximately [\$4.00] or [-4.0%] per month in 2024.

If you receive your electric generation from SDG&E, you are considered a "bundled" customer, and receive both electric delivery and electric commodity from SDG&E. If SDG&E's request is approved by the CPUC, the average residential monthly bill for a typical bundled customer using 400 kWh per month would decrease by approximately [\$8.60] or [-5.0%] per month in 2024.

Changes in individual bills will vary based on a customer's rate schedule and how much energy each customer uses. The tables below illustrate the impact to SDG&E's electric delivery rates and SDG&E's total bundled rates (electric delivery plus electric commodity).

**HOW COULD THIS AFFECT MY MONTHLY GAS BILL?**

This application requests no changes to gas rates.

**HOW DOES THE REST OF THIS PROCESS WORK?**

The assigned Judge will consider proposals and evidence presented during the formal hearing process. The Judge will issue a proposed decision that may adopt SDG&E's application, modify it, or deny it. Any CPUC Commissioner may sponsor an

alternate decision with a different outcome. The proposed decision, and any alternate decision(s), will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SDG&E's Application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
