**NOTIFICATION OF
SAN DIEGO GAS & ELECTRIC COMPANY'S
REQUEST TO CHANGE RATES FOR THE
GENERAL RATE CASE PHASE 2
APPLICATION FILING NO. A.19-03-002**

On March 4, 2019, San Diego Gas & Electric Company (SDG&E®) filed its General Rate Case (GRC) Phase 2 Application (Application) with the California Public Utilities Commission (CPUC), seeking approval to change certain electric rates for our customers. This Application proposes no changes to total revenue because revenue changes were addressed in SDG&E's GRC Phase 1 (A.17-10-007), filed on October 6, 2017. In addition, this Application requests no changes to gas rates.

SDG&E proposes (1) to gradually adopt rates that better reflect the cost of providing service and (2) a new rate class for public and charter schools. The proposed rate class is intended to more accurately reflect the cost to serve public and charter schools in SDG&E's territory.

SDG&E has requested the changes proposed in this Application become effective in 2021. If approved as filed, SDG&E customers would see the changes described here.

**ESTIMATED IMPACT OF THIS
REQUEST ON ELECTRIC RATES**

If the CPUC approves SDG&E's request, a typical residential customer living in the inland climate zone and using 500 kWh per month will see a monthly winter bill increase beginning in January 2021 of \$8.26, or 6.2%. A typical monthly electric bill will increase from \$140.96 to \$149.07 from current to 2021, and no change from 2021 to 2022. The dollar amounts and percentages shown do not necessarily reflect the exact changes you may see in your bill. Changes in individual bills will depend on how much energy each customer uses. Table 1 shows a comparison of current class average rates to proposed rates for 2021. There is no forecasted change to rates from 2021 to 2022.

CPUC PROCESS

This Application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SDG&E’s proposal, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the California Public Advocates Office (now known as CalPA, and previously known as ORA) will review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov or visit CalPA’s website at <http://www.publicadvocates.cpuc.ca.gov>.
