# NOTIFICATION OF SAN DIEGO GAS & ELECTRIC COMPANY'S REQUEST TO INCREASE ELECTRIC RATES NO. A.20-12-007

#### WHY AM I RECEIVING THIS NOTICE?

On December 11, 2020, San Diego Gas & Electric Company (SDG&E®) filed the Expedited Energy Resource Recovery Account (ERRA) Trigger Application with the California Public Utilities Commission (CPUC) for approval to increase electric rates.

New rates will begin on March 1, 2021, for a 10-month period ending December 31, 2021.

# HOW WILL THIS AFFECT BUNDLED CUSTOMER ELECTRIC BILLS?

Most customers receive bundled electric service from SDG&E, meaning they receive electric generation and distribution services. A summary of the rate impact for these customers is provided in the table below.

If the CPUC approves SDG&E's request, a residential bundled customer living in the inland climate zone and using 400 kilowatt-hours (kWh) per month could see a monthly winter bill increase of \$3.66, or 3.3%, from \$112.36 to \$116.02. A typical residential bundled customer living in the inland climate zone and using 400 kWh per month could see a monthly summer bill increase of \$3.72, or 3.3%, from \$111.71 to \$115.43. Individual customer bills may vary depending on energy usage.

## HOW WILL THIS AFFECT NON-BUNDLED **CUSTOMER ELECTRIC BILLS?**

Non-bundled customers include Direct Access (DA), Community Choice Aggregation (CCA) and other departing load customers who only receive electric distribution services from SDG&E. A summary of the rate impact for these customers is provided in the table below.

If the CPUC approves SDG&E's request, a residential non-bundled 2020 Power Charge Indifference Adjustment (PCIA) Vintage customer using 400 kWh per month could see a monthly bill increase of \$1.89, or 14.5%, from \$13.06 to \$14.95 from the PCIA charge. The PCIA charge is one charge amongst many on non-bundled customer bills and is the only charge that will increase.

For other customer classes in the 2020 PCIA Vintage, the monthly bill increase from the PCIA charge can be estimated by multiplying the "PCIA Rate Increase" applicable to their customer class from the table below by their typical kWh usage per month. A customer's actual kWh usage per month can be found on the right-hand side of the first page of customer bills in the section titled "Electric Usage History."

## **CPUC PROCESS**

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SDG&E's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office. please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov or visit PublicAdvocates.cpuc.ca.gov.
