

**SCHEDULE GTNC**

Sheet 1

NATURAL GAS INTRASTATE TRANSPORTATION SERVICE  
FOR DISTRIBUTION LEVEL NONCORE CUSTOMERS

APPLICABILITY

Applicable to natural gas service classified as:

- (1) Firm or interruptible intrastate transportation of natural gas; and
- (2) Noncore, excluding cogeneration and UEG, where the average monthly use equals or exceeds 20,800 therms through a single meter and the customer has elected the noncore service classification. Customers with average monthly usage below 20,800 therms who receive service on this schedule may retain their noncore eligibility.

Service under this schedule must be taken in conjunction with service under Schedule GP-SUR.

Service under this schedule is not available for customers that receive Transmission Level Service, as defined in Rule 1.

TERRITORY

Applicable throughout the utility's service territory.

RATES

	<u>Units</u>	
<u>CUSTOMER CHARGES</u> (therms)	\$/meter /month of avg. demand	\$350.00
<u>VOLUMETRIC CHARGES</u>	\$/therm	\$0.10002

Sheet 2

NATURAL GAS INTRASTATE TRANSPORTATION SERVICE  
FOR DISTRIBUTION LEVEL NONCORE CUSTOMERS

RATES (continued)

Other Charges

Billing adjustments may be necessary to reflect changes in volumes used in developing prior periods' transportation charges.

The charges for service under this schedule are the same for customers electing either firm or interruptible service.

The minimum monthly charge for customers subject to the Special Metering Fee will be the Special Metering Fee plus the customer charge. The minimum monthly charge for all other customers will be the customer charge.

Add any applicable taxes, fees, regulatory surcharges, or additional transportation charges imposed on the utility as a result of gas transportation under this schedule.

The number of therms will be determined in accordance with the provisions of Rule 2.

Franchise Fee Differential

A Franchise Fee Differential of 1.03% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers.

Sheet 4

NATURAL GAS INTRASTATE TRANSPORTATION SERVICE  
FOR DISTRIBUTION LEVEL NONCORE CUSTOMERS

SPECIAL CONDITIONS (Continued)

- 6. Term of Service. Customers electing firm service under this schedule will be obligated to a minimum two-year term of service. Customers electing interruptible service under this schedule will be obligated to a minimum one-month term of service. All customers electing service under this schedule will be required to sign a Request for Noncore Gas Services (Form 142-1259). Further details are provided in Rule 25.
- 7. Core Service Option: Subsequent to the implementation of D.02-08-065, all current noncore customers, except electric generation, refinery, and enhanced oil recovery customers using in excess of 250,000 therms per year, as defined in Schedule GPC, will be provided 90 days to exercise a one-time option to terminate their current contract in order to elect core service.
- 8. Average Demand. Average demand is the customer's average monthly usage, measured in therms, during the current and prior 11 monthly billing periods.
- 9. Customer Charge. At the utility's discretion, multiple meters located at a customer's premises, as defined in Rule 1, may be aggregated and billed as one meter for the purpose of applying the customer charge. Where service is rendered under multiple tariff schedules, the applicable customer charge will be the highest customer charge among these schedules and will apply to total metered usage at the customer's premises. Otherwise, separate customer charges may be applicable for service under each schedule.
- 10. Special Metering Fee. This fee will apply only to customers who have special metering devices as defined in Rule 27, Automatic Meter Reading.
- 11. Effective Date of Special Conditions. Special Conditions 12 through 18 are effective on and after May 1, 2003.
- 12. Firm Service Usage. The firm service usage shall be determined on a monthly basis to be equal to the customer's total consumption not to exceed their Monthly Contract Quantity (MCQ). For customers bidding hourly, the MCQ shall be equivalent to the summation of Hourly Contract Quantities (HCQ) for the month.
- 13. Firm Service Use-Or-Pay Charges. If during any billing period, the customer's Firm Service Usage is less than 75% of customer's Firm Noncore MCQ, the customer shall pay a Use-or-Pay charge equal to 80% of the Volumetric Charges multiplied by the difference between 75% of the customer's MCQ and the customer's Firm Service Usage. The Firm Service Use-or-Pay Charges shall be forgiven when the customer's reduced gas consumption is due to firm curtailments or firm service interruptions imposed by the utility.
- 14. Interruptible Service Usage. The Interruptible Service Usage shall be the customer's total noncore consumption less their Firm Service Usage.

FOR DISTRIBUTION LEVEL NONCORE CUSTOMERS

T

SPECIAL CONDITIONS (Continued)

- 15. Limitation of Availability of Firm Service. In the event that all of the load in a customer's request for firm service, submitted in response to an open season that closes after January 1, 2003, cannot be met by the utility, the utility shall allocate available capacity pro rata: first to existing customers based on their most recent 12-month demand; and second equally across all incremental load of existing customers and new customers. The utility will notify the customer when there is a change in the amount of their load that can be served at the Firm Level of Service. T
- 16. Firm Level of Service. The utility shall plan its system to provide transportation adequate to avoid curtailments of firm service more frequently than one episode in 10 years, based on historical weather conditions. Should there be any physical malfunction of equipment or extreme weather conditions the customer should anticipate the potential for additional curtailments. T
- 17. Firm Service Interruption Credit. In the event of a curtailment, a \$0.25 per therm credit may be applied to a customer's bill for applicable qualifying service interruptions as described in Rule 14. T
- 18. Pre-paid Deposit for Construction. A potential customer may obtain a Pre-paid Deposit for Construction letter from the utility based on the following: (1) the customer provides the utility with a written indication of interest in firm service and the specific levels per month, (2) the utility determines that a system expansion is needed to serve the potential customer's firm service load, and (3) the customer pre-pays the utility an amount equal to 20% of the cost of the utility's estimated pre-construction activities. Any pre-paid amounts shall be refunded to the customer if the customer commences service within 90 days of the date indicated in their written indication of interest letter and with a request for firm service equal to the levels originally requested. The utility may seek Commission approval to make any commitment to expand its system based on requests made in conformance with this Special Condition. T

IMPLEMENTATION OF D.09-11-006

N

- 19. Effective February 1, 2010, Transmission Level Service customers served under this schedule shall receive service under Schedule TLS. N
