16. CONFLICTS BETWEEN TERMS: Should a conflict exist between this Agreement and the documents incorporated by reference, this Agreement shall control. Should a conflict exist in the documents incorporated by reference, the documents shall control in the following order: 1) Program Manual; 2) SDG&E acceptance letter(s) and incentive estimate(s) based on DRMs as approved in the Application(s); and 3) Customer's approved Application(s). Should a conflict exist between an applicable federal, state, or local law, rule, regulation, order or code and this Agreement, the law, rule, regulation, order or code shall control. Varying degrees of stringency among the main body of this Agreement, the documents incorporated by reference, and laws, rules, regulations, orders, or codes are not deemed conflicts, and the most stringent requirement shall control. Each Party shall notify the other immediately upon the identification of any conflict or inconsistency concerning this Agreement.

17. MISCELLANEOUS: This Agreement shall at all times be subject to such changes or modifications by the CPUC as it may from time to time direct in the exercise of its jurisdiction. This Agreement shall be governed and construed in accordance with the laws of the State of California, without regard to its conflict of laws and provisions. If any provision of this Agreement shall be held by a court of competent jurisdiction to be illegal, invalid or unenforceable, the remaining provisions shall remain in full force and effect. This Agreement constitutes the entire agreement and understanding between the Parties as to the subject matter of this Agreement and supersedes all prior agreements, representations, writings and discussions between the Parties, whether oral or written, with respect to the subject matter hereof. No amendment, modification or change to this Agreement shall be binding or effective unless expressly set forth in writing and signed by SDG&E's representative authorized to execute the Agreement.

18. PAYMENT METHODOLOGY: The Technology Incentive projects will be paid as follows:

INCENTIVE PAYMENT: The incentive is \$200 per kW of verified dispatchable load reduction, not to exceed 75% of the actual, reasonable cost of the installed measure(s) (including the purchase price and any costs associated with installation by a third-party). Any in-house costs associated with installation will not be considered part of the cost of the installed measure(s). Incentive payments can only be distributed to the Customer.

The payment method of the Technology Incentives program operates under a split payment method:

18.1 Installation Payment: 60% of the total incentive will be paid after installation, verified load shed test, and upon enrollment in a qualified DR program or rate.

18.2 Performance Payment: Up to the remaining 40% of the total incentive will be paid at the end of the first Demand Response season or calendar year as applicable to the program or rate. This performance-based rate is based on the actual amount of participation in the DR program as determined during the DR Season. The full 40% incentive balance will be paid if the Customer's participation is equal to or greater than the load reduction estimated by the load shed test. If the actual performance is less than the estimated load reduction, the Performance Payment will be reduced proportionally with the measured load reduction during the DR Season. If the actual performance falls below 60% of the load shed test amount, SDG&E will invoice the customer for the difference between the paid Installation Payment and the actual performance amount.

18.3 DR Program Enrollment: Customer must establish enrollment in a DR program or rate by submitting a copy of the enrollment confirmation provided by SDG&E. Prior to issuing the TI incentive, Customer must receive authorization from SDG&E which will occur upon acceptance and verification of DR program enrollment.

RELEASE OF INFORMATION: If the CPUC requests review of this project, SDG&E will provide the CPUC with all of the information requested without further notification to you. If you refuse to allow the CPUC, its staff or its contractors and/or consultants to have access to the project data, this project will be excluded from this Program and ineligible to receive incentives. In the event this project is selected for review, SDG&E will mark the Customer's data as confidential before submitting its files to the CPUC in accordance with California Public Utilities Code Section 583 and CPUC General Order 66-C.
