

# CONSTRUCTION UPDATE

## Artesian Ranch Substation

This project will increase system reliability and capacity by expanding SDG&E's existing Artesian Substation in North County, upgrading existing power lines between the Artesian and Bernardo substations.

### Current Status

SDG&E® and our contractor crews anticipate beginning construction near your property and/or business **within the next five (5) days**. Construction activities will take place in phases. This means that work along the route will often occur intermittently and all construction activities required in a certain area will not be completed concurrently. Also, there will be multiple construction locations and activities taking place simultaneously, with work hours, traffic control measures, and noise restrictions for each area established by the local jurisdictions.

### No Service Interruption

Your electric service will continue without interruption during construction.

### Contact Information

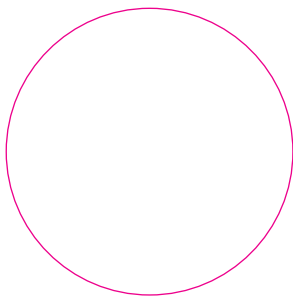

If you have any questions, please call the **Project Information Line** at 1-844-765-6388. For additional information, visit **[sdge.com/artesian](https://sdge.com/artesian)**.

## Thank you

Treating your streets and neighborhood with care by driving and working safely is a top priority. We apologize in advance for any inconvenience our construction work may cause you.

**See other side for project map**

Construction dates are subject to change according to compliance requirements, inclement weather or other unforeseen circumstances.
