#### SDG&E 2018 RPS REC Sale RFP

Questions & Answers / FAQs

1.	Would it be possible for SDG&E to provide a list of the facilities that any RECs may come from
	for the RFP?

Please see appendix A of this Document.

2. Will SDG&E only sell PCC3s if PCC1s are not all sold or will there definitely be some PCC3's available for sale?

PCC3 REC sales are not dependent on whether PCC1s are sold or not.

3. Does SDG&E have to sell REC's either via PCC1 or PCC3 sales or is a potential sale dependent upon prices bid into the RFP?

SDG&E is not required to sell RECs at this time but always attempts to maximize value for our customers if a potential deal can be found.

4. Is the 50,000 MWh per month, annually or over the 10-year period?

The 50,000 MWh is the minimum total contract volume for each offer over the entire contract term, regardless of the contract term. RECs can be allocated monthly or annually in the offer form (from 1 month up to the 10-year maximum).

5. What is the PPA / REC range per kWh rate you are looking to purchase power at?

There is no RFP requirement on minimum or maximum price that a Respondent can offer RECs at in for this RFP.

6. Would you clarify whether SDG&E is willing to purchase RECs through this RFP?

SDG&E will only sell RECs through this RFP, SDG&E will not consider a proposal to purchase RECs.

7.	. Why are values restricted from being entered into the monthly quantity section of the table?
	An updated offer form is now posted on the 2018 RPS REC Sale RFP website.

### Appendix A

#### List of facilities

# **Delivering Contracts Summary**

Index	Name	CP3 Probability	Technology	Location Date Signed Term (years) Start Stop		Stop	Capacity (MW)
