

**SAN DIEGO GAS & ELECTRIC COMPANY
SOUTHERN CALIFORNIA GAS COMPANY**

**APPLICATION FOR AUTHORITY TO
REVISE THEIR CURTAILMENT PROCEDURES**

(A.15-06-020)

(1st DATA REQUEST FROM SOUTHERN CALIFORNIA EDISON COMPANY)

QUESTION 1:

Please provide aggregated total gas use data for each hour in 2015. The aggregate total data should be provided separately for each of the “ten distinct local service zones” proposed on page 3 of A.15-06-020 for:

- a) Gas demand identified as “currently dispatched operating EG load” in curtailment order “Step 2” on page 4 of A.15-06-020
- b) Gas demand identified as “Cogeneration and non-EG noncore usage” in curtailment order “Step 3” on page 4 of A.15-06-020

RESPONSE 1:

- a) SoCalGas and SDG&E object to this request on the grounds that it seeks confidential customer data. Information by zones is not sufficiently aggregated for the EG market segment.
- b) SoCalGas and SDG&E do not collect hourly usage data most of the noncore cogeneration and noncore non-cogeneration customer classes.

Please refer to the following data responses for data provided to other intervenors:
