

Comprehensive Audit Program

The Comprehensive Audit Program (CAP) will deliver valuable insights about your electric use and connect you with the best ways to save.

Businesses in the following sectors & specialty equipment are most likely to benefit from this program:

<i>Agricultural</i>	<i>Grocery</i>	<i>Lodging</i>
<i>Biotech</i>	<i>Healthcare</i>	<i>Process</i>
<i>Commercial</i>	<i>HVAC</i>	<i>Refrigeration</i>
<i>Cold Storage</i>	<i>Industrial</i>	
<i>Food Service</i>	<i>Lighting DR</i>	

Features

- Begin with a comprehensive energy audit performed by top-tier engineering talent at no cost to you
- Review a findings report, detailing how and where your energy is being consumed, with an SDG&E Account Executive and/or engineer
- Energy saving recommendations are provided to help eliminate the challenge of having to determine what program is most suitable for your business

Program requirements

1. Premises have not had an audit within the last three years
2. Your business has monthly on-peak demand of 100 kilowatts (kW) or greater for three consecutive months (*if multiple meters are present at one premises for one customer, meter use can be aggregated by premises and customer to meet demand threshold*)
3. The business is currently being billed on a commercial, industrial or agricultural Time-of Use rate by SDG&E®
4. Must have occupied the premises and have consumption for a minimum of 12 months

All qualifying businesses will have a high-level audit performed.

Category 1 - High-Level Audit

Walk-through your business with an engineer and/or contractor and receive:

- Detailed list of all the energy-consuming equipment located on premises

Tap into an array of energy management services from one central source

- Recommendations on best energy-saving measures and high-level estimates of measure costs, energy savings and payback periods

Category 2 - Detailed Investment-Grade Audit

The customer-chosen measures/opportunities will have fully developed calculations, which include installation costs, incentives and payback values to help customers make informed decisions.

- Produces a report and presentation of recommended and actionable options based on customer requests and requirements
- Businesses planning to implement Category 1 recommended measures within 1 year of the audit can request a Category 2 audit for more detailed calculations of those targeted measures

To get started with your comprehensive audit

- Contact your Account Executive
- Call **1-800-644-6133**
- Visit sdge.com/cap, complete an audit application and email it to CAP@semptrautilities.com

Note - As an Integrated Demand Side Management (IDSM) program, audit scope and report for both the Category 1 & Category 2 audit includes energy efficiency (EE), demand response (DR), and distributed generation (DG) opportunities.

Programs are funded by California utility customers and administered by San Diego Gas & Electric® (SDG&E) under the auspices of the California Public Utilities Commission. Rebates and incentives will be allocated on a first-come, first-served basis, until funds are no longer available or until termination of the program. The On-Bill Financing program may be modified or terminated without prior notice and is provided to qualified customers on a first-come, first-served basis until program funds are no longer available. Eligibility requirements apply.
