**(9<sup>TH</sup> DATA REQUEST FROM THE INDICATED SHIPPERS)**

---

**QUESTION 09-01:**

For each day of the past two years, please provide SoCalGas' day-ahead forecast for core usage and the actual core usage for that day. If no other means of measurement of daily core usage is available, use a residual method, subtracting noncore, wholesale and LUAF usage from SoCalGas' total daily usage.

**RESPONSE 09-01:**

SoCalGas and SDG&E object to this request on the grounds that it seeks confidential customer-specific information. Without waiving this objection, and subject thereto, SoCalGas and SDG&E respond as follows: Please refer to Response 12.1 to the SCGC's 12<sup>th</sup> data request in this proceeding for the historical percent difference between the retail core daily demand forecast and the retail core's estimated daily usage.
