(3rd DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION)

**Date Requested: July 22, 2016
Date Responded: August 5, 2016**

PRELIMINARY STATEMENT

1. These responses and objections are made without prejudice to, and are not a waiver of, SDG&E's and SoCalGas' right to rely on other facts or documents in these proceedings.
2. By making the accompanying responses and objections to these requests for data, SDG&E and SoCalGas do not waive, and hereby expressly reserves, its right to assert any and all objections as to the admissibility of such responses into evidence in this action, or in any other proceedings, on any and all grounds including, but not limited to, competency, relevancy, materiality, and privilege. Further, SDG&E and SoCalGas makes the responses and objections herein without in any way implying that it considers the requests, and responses to the requests, to be relevant or material to the subject matter of this action.
3. SDG&E and SoCalGas will produce responses only to the extent that such response is based upon personal knowledge or documents in the possession, custody, or control of SDG&E and SoCalGas, as set forth in the California Public Utilities Commission ("Commission or CPUC") Rules of Practice and Procedure. SDG&E and SoCalGas possession, custody, or control does not include any constructive possession that may be conferred by SDG&E's and SoCalGas' right or power to compel the production of documents or information from third parties or to request their production from other divisions of the Commission.
4. A response stating an objection shall not be deemed or construed that there are, in fact, responsive information or documents which may be applicable to the data request, or that SDG&E and SoCalGas acquiesces in the characterization of the premise, conduct or activities contained in the data request, or definitions and/or instructions applicable to the data request.
5. SDG&E and SoCalGas expressly reserves the right to supplement, clarify, revise, or correct any or all of the responses and objections herein, and to assert additional objections or privileges, in one or more subsequent supplemental response(s).
6. SDG&E and SoCalGas will make available for inspection at their offices any responsive documents. Alternatively, SDG&E and SoCalGas will produce copies of the documents.
7. Publicly available information and documents including, but not limited to, documents that are part of the proceeding record, newspaper clippings, court papers, and materials available on the Internet, will not be produced.

(3rd DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION)

**Date Requested: July 22, 2016
Date Responded: August 5, 2016**

GENERAL OBJECTIONS

1. SDG&E and SoCalGas object to each instruction, definition, and request to the extent that it purports to impose any requirement or discovery obligation greater than or different from those under the CPUC Rules of Practice and Procedure, Statutes, and the applicable Orders of the Commission.
2. SDG&E and SoCalGas object to each request that is overly broad, unduly burdensome, or not reasonably calculated to lead to the discovery of admissible evidence.
3. SDG&E and SoCalGas object to each instruction, definition and data request to the extent that it seeks information protected from disclosure by the attorney-client privilege, deliberative process privilege, attorney work product doctrine, or any other applicable privilege. Should any such disclosure by SDG&E and SoCalGas occur, it is inadvertent and shall not constitute a waiver of any privilege.
4. SDG&E and SoCalGas object to each instruction, definition and data request as overbroad and unduly burdensome to the extent it seeks documents or information that are readily or more accessible to Southern California Generation Coalition (SCGC) from SCGC's own files, from documents or information in SCGC's possession, or from documents or information that SDG&E and SoCalGas previously released to the public or produced to SCGC. Responding to such requests would be oppressive, unduly burdensome, and unnecessarily expensive, and the burden of responding to such requests is substantially the same or less for SCGC as for SDG&E and SoCalGas.
5. SDG&E and SoCalGas object to each instruction, definition and data request to the extent that it seeks the production of documents and information that were produced to SDG&E and SoCalGas by other entities and that may contain confidential, proprietary, or trade secret information.
6. To the extent any of SCGC's data requests seek documents or answers that include expert material, including but not limited to analysis or survey materials, SDG&E and SoCalGas object to any such requests as premature and expressly reserves the right to supplement, clarify, revise, or correct any or all responses to such requests, and to assert additional objections or privileges, in one or more subsequent supplemental response(s) in accordance with the time period for exchanging expert reports set by the Commission.
7. SDG&E and SoCalGas incorporate by reference every general objection set forth above into each specific response set forth below. A specific response may repeat a general objection for emphasis or some other reason. The failure to include any general objection in any specific response does not waive any general objection to that request. Moreover, SDG&E and SoCalGas do not waive their right to amend any responses.

(3rd DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION)

**Date Requested: July 22, 2016
Date Responded: August 5, 2016**

QUESTION 3.1:

Please provide a complete set of workpapers that support the southern California portion of the gas demand forecast depicted in the 2016 California Gas Report (“CGR”).

RESPONSE 3.1:

The workpapers to the demand forecast in the 2016 CGR for the southern part of California are located at: <https://www.socalgas.com/regulatory/cgr.shtml>

(3rd DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION)

**Date Requested: July 22, 2016
Date Responded: August 5, 2016**

QUESTION 3.2:

Please provide a copy of the workpapers requested in Q.3.1 in Excel format.

RESPONSE 3.2:

SDG&E and SoCalGas object to this request on the grounds that it is unduly burdensome and seeks information not relevant to this proceeding. Subject to and without waiving their objection, SDG&E and SoCalGas respond as follows. Not all of the workpapers in support of the California Gas Report are available in excel format. For those that are available, please refer to the accompanying attachments.

(3rd DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION)

**Date Requested: July 22, 2016
Date Responded: August 5, 2016**

QUESTION 3.3:

The 2016 CGR states at page 118: "Savings reported are for measures installed under SDG&E's gas and electric Energy Efficiency programs. Credit is only taken for measures that are installed as a result of SDG&E's Energy Efficiency programs, and only for the measure lives of the measures installed.¹ Measures with useful lives less than the forecast planning period fall out of the forecast when their expected life is reached. Naturally occurring conservation that is not attributable to SDG&E's Energy Efficiency activities is not included in the Energy Efficiency forecast."

- 3.3.1. Please confirm that the 2016 CGR forecast reflects energy savings associated with SDG&E's electricity energy efficiency measure.
- 3.3.2. For each individual year, do the savings associated with SDG&E's electricity energy efficiency that are reflected in the CGR incorporate any of the additional achievable energy efficiency ("AAEE") savings that are reflected in the California Energy Commission staff electricity forecast issued in January 2016?
- 3.3.3. If the answer to Q.3.3.2 is "yes," please identify how much of the AAEE is reflected.
- 3.3.4. If the answer to Q.3.3.2 is "no," please explain why SDG&E has not included the AAEE in the CGR forecast.

RESPONSE 3.3:

SDG&E and SoCalGas object to this request on the grounds that it seeks information not relevant to this proceeding. Subject to and without waiving their objection, SDG&E and SoCalGas respond as follows.

- 3.3.1: Yes, SDG&E's forecast reflects energy savings associated with SDG&E's electricity energy efficiency measure.
- 3.3.2: SDG&E used the CEC's AAEE 2013 forecast that was revised in April 2014.
- 3.3.3: SDG&E used the Mid case scenario from the aforementioned forecast.
- 3.3.4: Not applicable.
