

The Service Standards & Guide is an accumulation of different standards to help users build their projects. If you have any questions regarding the content of this manual or any other Electric Distribution Engineering manuals listed below, please contact the following manual owners:

Manual	Owner	Email Address	Phone
Electric Distribution Design Manual	Jon Erickson	<a href="mailto:icerickson@semprautilities.com">icerickson@semprautilities.com</a>	(858) 654-8245
Overhead Construction Standards	Greg Walters	<a href="mailto:gwalters@semprautilities.com">gwalters@semprautilities.com</a>	(858) 654-8396
Service Standards & Guide	Israel Juarez	<a href="mailto:ijuarez@sdge.com">ijuarez@sdge.com</a>	(858) 636-3941
Underground Construction Standards	Eddie Alcobia	<a href="mailto:ealcobia@semprautilities.com">ealcobia@semprautilities.com</a>	(619) 574-4988

These standards were developed for maintaining safety and reliability of the electric distribution and service systems. SDG&E will only accept system designs or installations which conform to these standards.

Service Standards & Guide deviation requests must be approved by Service Standards. Deviations which comply with the General Orders or California Electrical Code, such as separations and working clearances, may be granted.
