

# Energy Efficiency Business Incentives

**Benefit from cash incentives for retrofitting existing or installing new high-efficiency equipment to save energy. Your incentive amount is driven by the amount of energy the project saves.**

## Save energy. Earn incentives.

Our Energy Efficiency Business Incentives program offers incentive payments for energy-efficiency projects involving the installation of new, high-efficiency equipment or systems. A project may consist of the retrofit of existing systems or the installation of equipment associated with new or added load.

Estimation software or engineering calculations are used to estimate the energy savings and incentive depending on the type of energy-efficiency measure installed. Some projects may require a measured savings approach. Incentives are paid based on the quantity of kilowatt hours (kWh) or therms saved resulting from the installation of the new equipment or system.

## Who is eligible?

Any public, industrial or agricultural customer who pays the public goods charge and/or demand-side management surcharge is eligible to participate regardless of size or project scope.

## What are the project requirements?

The equipment must exceed government standards, must operate at least five years and must not overlap other incentive programs offered by the utility.

**Pre-inspections are required for all projects.**

Incentive Rate Structure (effective June 1, 2018)	
Electric	\$0.12/kWh
Gas	\$1.25/therm
Peak reduction	\$150/kW
For a list of measure categories, visit <a href="http://sdge.com/eebi">sdge.com/eebi</a> .	

### **Are there any limitations?**

Applicants are eligible to receive up to 50% of the full measure cost for Early Retirement and Retrofit Add-on measures, or 100% of the incremental measure cost for Replace on Burnout and New Load measures. Measures involving self-generation or cogeneration, or measures that do not involve significant replacement or installation of equipment are not eligible. For more information on these limitations, please refer to Section 1 of the Program Manual.

### **How do I apply?**

Complete and submit the program application forms found at [sdge.com/eebi](http://sdge.com/eebi) or email us at [businessenergysavings@sdge.com](mailto:businessenergysavings@sdge.com) for assistance completing the application forms.

### **What is the deadline for participation?**

Program incentive funds will be allocated on a first-come, first-served basis, until all funds are committed. If all funds are committed, applications will be placed on a waiting list by SDG&E®, and will be notified in order of receipt if additional funds become available.

Programs are funded by California utility customers and administered by San Diego Gas & Electric® (SDG&E) under the auspices of the California Public Utilities Commission. Program incentive funds will be allocated on a first-come, first-served basis, until all funds are committed. The selection, purchase, and ownership of goods and services are the sole responsibility of the customer. SDG&E makes no warranty, whether express or implied, including warranty of merchantability or fitness for any particular purpose, use or application of selected goods and services.
