GENERAL REQUIREMENTS

- Customer must have a San Diego Gas & Electric® (SDG&E®) commercial electric account.
- Carefully read the specifications and definitions to determine whether your product(s) qualify.
- All new lighting fixture(s), retrofit kits, and components must carry the appropriate, designated Underwriters Laboratory (UL) or Intertek's Electrical Testing Labs (ETL) Listed Mark, and must be Restriction of Hazardous Substances Directive (RoHS) compliant.
- In all cases, the wattage of the replacement lighting equipment must be less than the wattage of the existing lighting equipment.
- Storage warehouses (rental spaces) qualify as interior space.
- Parking garages do not qualify as interior space. This includes conditioned and underground parking garages.
- All fixtures must be hardwired.

Note:

Several products offered through the Energy Efficiency Business Rebates program are provided at no cost or at a discount for qualified customers through SDG&E's Business Energy Solutions program. Customers with a monthly electrical demand less than 200 kW may participate and should visit sdge.com/BES or call our Energy Savings Center at 1-800-644-6133 for details.

LIGHTING DEFINITIONS

Candelabra Base

A smaller screw-in base for light bulbs with a 12-millimeter diameter, referred also as an E12 base.

Edison Base-

The most common screw-in base for light bulbs with a 26-millimeter diameter, referred also as an E26 (or medium) base.

ETL Listed Mark

A product bearing the ETL Listed Mark has been tested to be in compliance with applicable electric, gas and other safety standards. For more information, visit www.intertek.com/marks/etl.

Interior

Conditioned indoor space. Parking garages are an exception and are not considered interior space.

Luminaire**

Complete lighting unit consisting of lamp(s) and the parts that distribute the light, position and protect the lamp(s), and connect the lamp(s) to the power supply.

Underwriters Laboratory (UL)

An independent product safety certification organization. For more information, visit UL.com.

***Defined per 2013 Building Energy Efficiency Standards for Residential and Non-Residential Buildings Title 24, Part 6*

COMMERCIAL LED T8 LAMP

Requirements:

- Only interior 4-foot UL Type A LED T8 lamps qualify.
- New LED T8 lamp must replace an existing 4-foot linear fluorescent T8 lamp.
- The lamp must be listed on <http://www.designlights.org/QPL> under the Primary Use Category “Replacement Lamps (‘plug and play’) (UL Type A)” or “Dual Mode Internal Driver (UL Type A and Type B)”.
- Due to testing considerations, only a product that can operate off of an electronic instant start ballast is eligible.
- New LED T8 Lamp must also meet the efficiency requirements as shown in the table below.

Performance Metric	SDG&E Program Requirement (no tolerance)
Luminaire Efficacy	≥ 145 LPW
CRI	≥ 80
CCT	2,200 K – 6,500 K
Power Factor	≥ 0.9
Total Harmonic Distortion	≤ 20% LPW
Lumen Maintenance	L70 ≥ 50,000
Minimum Warranty	5 years

Restrictions:

- De-lamping is not eligible.
- Re-ballast is not eligible.
- Replacement lamps designed to operate off of existing magnetic ballasts or off of other types of electronic ballasts do not qualify.

INTERIOR LED TROFFER

Requirements:

- New LED fixture or integrated retrofit kit must replace an existing linear fluorescent fixture.
- New LED luminaire must have rated lumen output similar to the rated lumen output of the fixture being replaced or retrofitted.
- Product must meet the technical requirements listed on the current DesignLights Consortium (DLC) qualified product list.
 - DLC: <http://www.designlights.org/QPL>
- The product must be listed under one of the following Primary Use Categories:
 - 2x4 Luminaires for Ambient Lighting of Interior Commercial Spaces
 - Integrated Retrofit Kits for 2x4 Luminaires for Ambient Lighting of Interior Commercial Spaces
 - 2x2 Luminaires for Ambient Lighting of Interior Commercial Spaces
 - Integrated Retrofit Kits for 2x2 Luminaires for Ambient Lighting of Interior Commercial Spaces
 - 1x4 Luminaires for Ambient Lighting of Interior Commercial Spaces
 - Integrated Retrofit Kits for 1x4 Luminaires for Ambient Lighting of Interior Commercial Spaces
- DLC-listed initial light output must be ≥ 2200 lm and $\leq 6,500$ lm.
- Product must meet the minimum efficacy requirements ≥ 125 LPW.

Restrictions:

- Fixtures listed under a Primary Use Category that begins with “specialty” are not eligible.
- Other fixture configurations, including LED troffer linear retrofit kits or external driver lamp-style retrofit kits (UL Type C) do not qualify for this rebate.
- Exterior or high/low-bay installations of these products do not qualify.
- Screw-based lamps and linear replacement lamps do not qualify.
- All LED Troffer and Integrated Troffer Retrofit Kit rebates are capped at 4.5 kilolumens per fixture.

INTERIOR LED LINEAR AMBIENT FIXTURE

Requirements:

- New LED fixture or integrated retrofit kit must replace an existing linear fluorescent fixture.
- New LED luminaire must have rated lumen output similar to the rated lumen output of the fixture being replaced or retrofitted.
- Product must meet the technical requirements listed on the current DesignLights Consortium (DLC) qualified product list.
 - DLC: <http://www.designlights.org/QPL>
- The product must be listed under one of the following Primary Use Categories:
 - Direct Linear Ambient Luminaires
 - Linear Ambient Luminaires with Indirect Component
 - Retrofit Kits for Direct Linear Ambient Luminaires
- DLC-listed initial light output must be $\leq 6,500$ lm.
- Product must meet the minimum efficacy requirements ≥ 125 LPW.

Restrictions:

- Fixtures listed under a Primary Use Category that begins with “specialty” are not eligible.
- Other fixture configurations, including LED troffer linear retrofit kits or external driver lamp-style retrofit kits (UL Type C) do not qualify for this rebate.
- Exterior or high/low-bay installations of these products do not qualify.

INTERIOR LED HIGH BAY FIXTURE

Requirements:

- New LED fixture must replace a lumen equivalent lamp/fixture of higher wattage.
- Only interior installations of LED fixtures or retrofit kits listed on the current DesignLights Consortium (DLC) qualified product list qualify.
 - DLC: <http://www.designlights.org/QPL>
- The LED fixture or retrofit kit must be listed on DLC under the General Application Category “High Bay” with the following Primary Use Designations:
 - High-Bay Aisle Luminaires
 - High-Bay Luminaires for Commercial and Industrial Buildings
 - Low-Bay Luminaires for Commercial and Industrial Buildings
 - Retrofit Kits for High-Bay Luminaires for Commercial and Industrial Buildings
 - Retrofit Kits for Low-Bay Luminaires for Commercial and Industrial Buildings
- Fixtures/retrofit kits must meet the minimum efficacy and lumen range for the appropriate product code.

Restrictions:

- Fixtures listed under a Primary Use Category that begins with “specialty” are not eligible.
- Horticultural installations do not qualify.
- Exterior installations do not qualify.
- Screw-based lamps do not qualify.
