

Wildfire Safety

# Wildfire season is here.

Prepare your household now.

# Our commitment is to your safety.

Increasingly, California and the western region of the U.S. are experiencing more frequent and severe wildfires. The safety of our customers, employees, and the communities we serve is at the heart of everything we do, which is why we continue to strengthen our infrastructure and invest in solutions that help protect the people who call this region home.

MORE THAN

**130**

cameras monitor  
weather and fires.

MORE THAN

**220**

weather stations  
provide readings of  
wind speed, humidity  
and temperature.

MORE THAN

**300**

miles of power  
lines strategically  
undergrounded.

MORE THAN

**480,000**

trees have been  
inspected and trimmed  
near SDG&E® power lines.

MORE THAN

**40**

drones conduct  
year-round aerial  
inspections of power  
and gas lines.

**5**

helicopters help  
with wildfire safety  
and patrolling  
electrical lines.

**We don't stop there.** If dangerous conditions are present, we may shut off power to keep you and your community safe. This is called a **Public Safety Power Shutoff (PSPS)**.

# What is a Public Safety Power Shutoff?

A PSPS is a proactive safety measure where power is temporarily turned off in specific areas during extreme weather conditions that can increase the risk of wildfires. SDG&E is continually monitoring these high-fire-risk conditions to protect the communities it serves, including:

**HIGH WINDS**  
(Including Red  
Flag warnings)

**LOW  
HUMIDITY**

**DRY  
VEGETATION**  
that could serve  
as fuel

**FIRE  
THREAT**  
to electric  
infrastructure

**ON-THE-  
GROUND  
OBSERVATIONS**

**PUBLIC  
SAFETY  
RISK**

To learn more about Public Safety Power Shutoffs, visit [sdge.com/Wildfire-Safety](https://sdge.com/Wildfire-Safety).

# How is a Public Safety Power Shutoff determined?

## Public Safety Power Shutoff Process

| 7-10 days ahead   | 3-6 days ahead  | 2 days ahead  | 1 day ahead   | Day of Power Shutoff   | CRC open  | Safety inspections  | Power restored  |
|---|---|---|---|--|---|---|---|
|                               |  |    |    |   |  |    |    |
| When forecasts indicate the potential for fire conditions, SDG&E monitors weather to assess potential impact. | SDG&E Meteorology Team refines fire weather forecasts accordingly.                | Communication starts with customers potentially affected by a possible PSPS including State, County, City, Critical Customers and Medical Baseline Customers. | Continued monitoring, communications and coordination with Public Safety Partners and communities impacted by weather conditions. | Continue notifying all affected customers, including State, County, City, Critical Customers and Medical Baseline Customers. | Inform customers and the public when Community Resource Centers (CRCs) are open.    | Power line safety inspections begin. Crews inspect power lines and equipment to confirm they are safe prior to restoring power. | Once the high fire risk conditions have passed, SDG&E field crews and aerial resources will patrol overhead power lines to make sure the system is clear of damage and power is ready to be restored. |

## Timeline of Notifications (when possible)

During a PSPS, we plan to support you by opening a Community Resource Center in or near affected areas.

# Know where to go during an extended outage.

A Public Safety Power Shutoff can last until fire risk conditions are no longer a threat.

We plan to open any of our Community Resource Centers in or near affected areas.

These facilities serve as locations where impacted residents can go to get preparedness materials, ice, water, snacks, car power inverters, small solar-powered batteries and radios, and get up-to-date information on outages.

For a complete list of Community Resource Centers, including facility names and addresses, visit [sdge.com/Resource-Centers](https://www.sdge.com/Resource-Centers).

# Stay safe. Take action.

Think smart. Don't leave your safety to chance. Take steps now to prepare for any emergency.

## Develop an emergency plan

Identify a place to meet with family, safe routes and shelters, as well as what actions you will take. Discuss and practice the plan with your family, including your children.

## Electric generator safety

A backup electric generator can be a valuable thing to have when the power goes out. Find out whether you need one for your home, how to shop for the right generator and use it properly to avoid risking you and your family's safety. Learn more at [\*\*sdge.com/Generator\*\*](https://sdge.com/Generator).

## Download our app, "Alerts by SDG&E"

Stay informed about Public Safety Power Shutoffs (PSPS) before, during and after these events are called. Visit [\*\*sdge.com/PSPSapp\*\*](https://sdge.com/PSPSapp) to download the app or learn more.

Whatever the circumstances, we'll make every effort to communicate with you.

## Update contact information

Visit [\*\*MyEnergyCenter.com\*\*](https://MyEnergyCenter.com), click on "Account" and update your contact information, including your email address.

## Sign up for outage notifications

Stay in the know, so we can help keep you safe. This process is for PSPS as well, not just wildfires. Start by making sure contact information is up-to-date.

Visit [\*\*sdge.com/Notifications\*\*](https://sdge.com/Notifications).

## Providing extra support during Public Safety Power Shutoffs

SDG&E is committed to providing all customers with accessible resources and services during a PSPS. So that we can better understand those with accessibility needs, please complete our survey at [\*\*sdge.com/AFN-Survey\*\*](https://sdge.com/AFN-Survey).

# Be prepared. Create a defensible space.

Minimize your home's exposure to risk by modifying the vegetation space around it to resist a wildfire.

# Helping to build community safety

We continue to strengthen our network of partners that strive for year-round resiliency and provide emergency preparedness and rapid response during crises. SDG&E also supports and fosters strategic communication with local first responders and safety partners to develop public safety programs that encourage emergency preparedness, response and recovery planning.

# Have an emergency kit ready

In an emergency, you may only have a moment's notice to evacuate. Here are some suggested items to consider.

## Your packing list

- ☐ Three-day supply of bottled water (one gallon per person per day)
- ☐ First aid kit, essential medicines and eyeglasses
- ☐ Three-day supply of packaged, dried and canned food
- ☐ Manual can opener
- ☐ Pet food and pet carrier
- ☐ Portable radio and flashlights with spare batteries in waterproof bags
- ☐ An extra set of car keys, cash and credit cards
- ☐ Special items for infants
- ☐ Cell phone with chargers and backup battery
- ☐ Whistle to signal for help
- ☐ Overnight bag of clothes and toiletries
- ☐ Facial mask
- ☐ Hand sanitizer
- ☐ Fire extinguisher
- ☐ Important documents

## Items for seniors and people with disabilities

- ☐ Medical equipment (including batteries and chargers)
- ☐ Prescriptions
- ☐ List of medical, pharmacy and medical device supply providers, including phone numbers
- ☐ Copies of prescriptions, doctors' orders and serial numbers of medical devices
- ☐ Extra eyeglasses and hearing aids (include extra batteries)
- ☐ Medical alert tags or bracelets or written description of your disability and/or needs if you're unable to describe the situation in an emergency
- ☐ Assistive technology and/or communication tools
- ☐ Accessible housing
- ☐ Service animal

# Disaster information

In an emergency, the most important thing you can do is be prepared.

## SDG&E®

Call **1-800-411-7343** or visit **[sdge.com/Safety](https://sdge.com/Safety)** for more information.

## Community Resource Centers

During extended Public Safety Power Shutoffs, we'll open resource centers. Find a resource center at **[sdge.com/Resource-Centers](https://sdge.com/Resource-Centers)**.

## Ready San Diego

County Office of Emergency Services. Sign up for notifications in case there is an emergency: **[ReadySanDiego.org](https://ReadySanDiego.org)**

## Download the SD Emergency app

**[ReadySanDiego.org/SDEmergencyApp/](https://ReadySanDiego.org/SDEmergencyApp/)**

Wildfire Safety

## American Red Cross

San Diego/Imperial Counties Chapter.  
Help before, during and after emergencies.

San Diego/Imperial Counties: **[RedCross.org/SanDiego](https://RedCross.org/SanDiego)**

## 211 Hotline

SDG&E and 211 have collaborated to provide appropriate information and services to increase preparedness during a PSPS and emergencies. Services may include assisted transportation, backup power, preparedness items, food security, temporary shelter and wellness checks. A live operator can help you find what you need in your location, simply dial 211.
