

Gas GIS Map and Data Request Form

Requester Information:

Name Company / Department

Email Phone

Address

The requester information (point of contact) will need to be an individual from a United States based company. Sub-contractors will need their United States based Primary Contractor to initiate the request.

Is this request intended for external use?

If yes, does the requester have a Legally Binding Confidentiality Agreement on file with SDG&E®?

Map Title / Project Name Request by Date

Purpose / Intended Use

Description / Comments (when submitting your request, attach a map marking out the area of the request)

If this request is for a single property, complete page 1. If this request consists of multiple spans of gas infrastructure, complete page 2 so it can be assessed whether a confidentiality agreement is required.

**Submit Requests to:
GasFacilityMaps@semprautilities.com**

PLEASE NOTE: Requests may take 10 business days for review, approval, creation and delivery

Requester Justification:

Answer the following questions to further explain why you need this information

What is the business reason for this request?

How will this information be used and protected?

Please indicate if your organization will be requesting multiple gas facility maps throughout the SDG&E territory?

To expedite your request, provide the following details and any additional justification above.

Business Reason?

- Is this request for your organization or for a project for another (who?) organization
- Provide some high level details of the project the requested data will be used with

Information being used and protected?

- How will the SDG&E Gas data be utilized within your organization, within which products or services
- Describe any intent to distribute SDG&E Gas data or your products or services that include SDG&E Gas data

Will your organization be submitting multiple requests?

- This section is to establish that, if an NDA is required, would it be used for multiple requests:
 - Over a singular project's duration, OR
 - Does your organization have several differing projects across SDG&E Gas territory
