## How would this impact a bundled customer?<sup>5</sup>

If SDG&E's request is approved by the CPUC, a typical customer using 400 kWh per month would see an average monthly electricity bill increase of approximately \$0.29, or 0.2% in 2027, and then \$0.08 or 0.0% in 2028.<sup>6</sup> The actual impact will vary based on usage and pricing plan.

<sup>3</sup> If you receive your electric generation from an ESP or CCA that is not SDG&E, you are considered an "unbundled" customer. Unbundled charges include SDG&E's electric delivery rates along with Power Charge Indifference Adjustment (PCIA) rates. Rates and bills exclude the cost of electricity procured on your behalf by your CCA or ESP. Please contact your CCA or ESP for additional information. Electric generation rates for unbundled customers are set by a customer's respective ESP.
