## **NOTICE OF SAN DIEGO GAS & ELECTRIC COMPANY'S RATE INCREASE REQUEST**

### **San Diego Gas & Electric® Company's (SDG&E®) Demand Flexible Rates Application to the California Public Utilities Commission (CPUC) (A. 26-02-001)**

#### **What is being requested?**

SDG&E is requesting a revenue increase of \$11.3 million to recover costs for demand flexible rates.<sup>1</sup> This increase will be phased in beginning as early as 2028 through 2031.<sup>2</sup> The request includes costs associated with planning and implementing demand flexible rates, designing and incorporating various cost components and customer options, building out billing system enhancements, customer marketing and outreach, and customer notifications. Demand flexible rates will give participants day-ahead hourly price signals, allowing them to adjust their electric usage accordingly. The benefits are economically efficient for load shifting in response to flexible pricing, potential for bill reduction, and supporting grid reliability.

---

<sup>1</sup> SDG&E is required by CPUC Decision 25-08-049 to propose demand flexibility rates for all customer classes, except streetlighting, that, among other design elements, comply with California Energy Commission Load Management Standards.

<sup>2</sup> Revenue requirements after 2031 will be included in future SDG&E General Rate Case Applications. SDG&E will seek recovery of FERC-Jurisdictional costs and associated revenue requirements from the FERC.

Illustrative Proposed Total Electric Rate Increase by Customer Class <sup>3</sup>		
Customer Class	Proposed Rate Increase (¢/kWh)	Percentage Rate Increase (%)
Residential	0.02	0.04%
Small Comm.	0.02	0.04%
Med & Lg C&I	0.02	0.04%
Agriculture	0.02	0.07%
Lighting	0.02	0.05%
System Total	0.02	0.05%

### How would this impact the average residential customer?

If the request is approved by the CPUC, all residential electric customers using 400kWh per month would see a monthly bill increase of approximately \$0.07. This increase will be phased in beginning as early as 2028. Actual impacts will vary based on usage, baseline territory, and other factors.

### Additional information

You can read more about the SDG&E’s request and make public comment by visiting [apps.cpuc.ca.gov/c/A2602001](https://apps.cpuc.ca.gov/c/A2602001). For questions about participating in CPUC matters, you can contact the Public Advisor’s Office at [Public.Advisor@cpuc.ca.gov](mailto:Public.Advisor@cpuc.ca.gov), 1-866-849-8390, or 505 Van Ness Ave., San Francisco, CA 94102. Please reference **A.26-02-001** in any communication with the CPUC.

### Questions about the request

For questions about SDG&E’s request, please contact SDG&E at [tmkirch2@sdge.com](mailto:tmkirch2@sdge.com) with a reference to **A.26-02-001** SDG&E Demand Flexible Rates Application.

<sup>3</sup> Increase calculated comparing 2029, which is the peak year, to current effective rates as of 1/1/26. Rate increase will be the same for bundled and unbundled customers. Percentage change reflects comparison to total bundled rates.
