NOTICE OF SAN DIEGO GAS & ELECTRIC COMPANY AND CALIFORNIA ENERGY COMMISSION'S RATE INCREASE REQUEST

San Diego Gas & Electric Company's (SDG&E®) 2026-2030 EPIC Application to the California Public Utilities Commission (CPUC) A.26-08-016 and California Energy Commission's (CEC) 2026-2030 Electric Program Investment Charge (EPIC) Application A.26-08-017.

What is being requested?

EPIC is a state program, administered by the CEC and the three large electric utilities, Pacific Gas & Electric (PG&E), Southern California Edison (SCE), and SDG&E. SDG&E administers approximately 1.76% of the total program funds to support early-stage technology demonstrations that benefit SDG&E customers.

The CPUC mandates SDG&E administer EPIC within its service territory and collect funding through customer rates on behalf of the CEC.[1] The proposed rate increase reflects two separate requests by the CEC and SDG&E to fund their respective 2026-2030 EPIC Applications. If approved, SDG&E will collect an additional $2.6 million per year (through 2030) through customer rates to continue supporting the development and demonstration of new clean energy technologies for both the CEC and SDG&E programs/projects.[2] Of that amount, $2.4 million (or 94%) would be collected on behalf of CEC and $0.2 million (or 6%) would support SDG&E's EPIC projects.[3]

(Continued inside)

Illustrative Proposed Electric Rate Impacts by Customer Class[4] for the Combined Request

Customer Class	Proposed Rate Increase (¢/kWh)	Percentage Rate Increase (%)
Residential	0.01	0.03%
Small Commercial	0.01	0.04%
Medium Commercial	0.01	0.04%
Large C&I	0.01	0.04%
Agricultural	0.01	0.06%
Streetlighting	0.01	0.05%
System Total	**0.01**	**0.04%**

How would this impact the average residential customer?

If the request is approved, the typical residential electric customer using 400 kWh would see a monthly bill increase of approximately $0.06. The actual impact will vary based on usage, baseline territory, and other factors.

Additional information

You can read more about the CEC's request and make public comment by visiting **apps.cpuc.ca.gov/c/A2608017**. To view SDG&E's request and make public comment you can visit **apps.cpuc.ca.gov/c/A2608016**. For questions about participating in CPUC matters, you can contact the Public Advisor's Office at Public.Advisor@cpuc.ca.gov, 1-866-849-8390, or 505 Van Ness Ave., San Francisco, CA 94102. Please reference **A.26-08-016** or **A.26-08-017** in any communication with the CPUC.

Questions about the request

For questions about the CEC's application, please contact the CEC at ERDD@energy.ca.gov with a reference to **A.26-08-017**. For questions about SDG&E's application, please contact SDG&E at ealvare6@sdge.com with a reference to **A.26-08-016**, or 8330 Century Park Court, San Diego, CA 92123.

This program is funded by California utility customers under the auspices of the California Public Utilities Commission.

---

[1] 80% of EPIC funds are administered by the CEC and 20% by PG&E, SCE, SDG&E. CPUC Decision (D.)12-05-037 authorized PG&E, SCE, and SDG&E to collect EPIC funds through their customer rates.

[2] CPUC D.21-11-028 and D.26-02-037 approved all EPIC Administrators to have the ability to propose adjusting their EPIC 5 (2026-2030) budgets by the rate of inflation, as calculated using the California Department of Finance's California Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) method.

[3] The CEC is requesting a 18.79% inflation adjustment, accounting for the inflation from the EPIC 4 period (2021-2025) to the EPIC 5 period (2026-2030). See Ng, Anthony and Misa Werner. 2026. The Electric Program Investment Charge 2026–2030 Investment Plan — EPIC 5 Investment Plan at 10. California Energy Commission. Publication Number: CEC-500-2026-022-CMD. SDG&E is requesting a 5.00% inflation adjustment.

[4] Increase comparing incremental annual impact to current effective rates as of 8/1/2026. Rate increase will be the same for bundled and unbundled customers. Percentage change reflects comparison to total bundled rates.
