

Upgrade your home comfort with GoGreen financing

GoGreen Financing helps qualifying SDG&E® customers make energy-efficient home upgrades with affordable, flexible financing. Instead of paying the full cost upfront, customers can spread payments over time with low interest rates, longer repayment terms and no property liens.

This statewide program makes it easier to improve home comfort, health and energy efficiency - while helping manage household costs.

Home upgrades you can finance

GoGreen Financing supports a wide range of energy-saving and electrification upgrades for homes, including:

- Heating and cooling systems, including heat pumps
- Heat-pump water heaters
- ENERGY STAR® appliances
- Insulation, windows and weatherization
- Solar plus battery storage (when bundled)
- EV chargers and other eligible upgrades

Financing may cover up to 100% of project costs, including installation, and can often be combined with available rebates and incentives for additional savings.

How GoGreen financing works

- 1. Explore upgrade options:** Learn about eligible energy-efficient improvements for your home.
- 2. Choose a qualified contractor:** Work with a GoGreen approved contractor.
- 3. Apply for financing:** Review financing options from participating lenders and apply for a loan that fits your needs.
- 4. Complete your upgrade:** Enjoy a more comfortable, energy-efficient home while paying over time.

GoGreen Financing is available to SDG&E electric and/or gas customers, including homeowners and renters (with property-owner approval).

Learn more and get started at GoGreenFinancing.com.

Little changes help you save energy

Warm days are still here and that can mean higher energy use. Check out these simple tips to help you stay comfortable while keeping your bill on track.

- 1. Stay breezy:** Use ceiling fans (counterclockwise in hot months) and tabletop fans to stay cool and turn them off when you leave the room. Ceiling fans cool people, not rooms.
- 2. Track your energy use:** See when and how you're using energy with My Energy Charts. Sign in to MyEnergyCenter.com. Click on the usage tab to spot patterns and find ways to save.
- 3. Shift to save:** Most customers are on a Time-of-Use plan where energy costs the most from 4 p.m. to 9 p.m. Reducing energy use during these on-peak hours can help you manage your energy bill. Find out your pricing plan on sdge.com/residential/pricing-plans and compare to other plans to see which is best for you.
- 4. Take advantage of lowest-cost hours:** Run large appliances, charge EVs or cool your home during super off-peak hours when energy costs less; weekdays from midnight to 6 a.m., 10 a.m. to 2 p.m. (new!) and midnight to 2 p.m. on weekends.
- 5. Unplug and save:** Everyday devices could be quietly adding to your bill, but unplugging them while not in use can help you save energy. See your potential savings with SDG&E's vampire energy calculator at sdge.com/summer.

IT'S WILDFIRE SEASON -

To receive alerts in case of wildfires or other emergencies, make sure your contact information is up to date. Sign up at sdge.com/notifications.

Need help with your energy bill?

You may qualify for a bill discount. Assistance programs may help lower your monthly energy bill while keeping your home comfortable.

- 1. California Alternate Rates for Energy (CARE) Program:** Save 30% or more every month on your bill. Find out if you qualify at sdge.com/CARE.
- 2. Family Electric Rate Assistance (FERA) Program:** If you don't qualify for CARE, you may qualify for FERA. You could receive an 18% discount on your electricity bill. Visit sdge.com/FERA to learn more.
- 3. Energy Savings Assistance (ESA) Program:** Provides no-cost, energy-efficient home improvements to income-qualified customers. Services and products may include attic insulation, energy-efficient refrigerators, weatherstripping and more. For details, visit sdge.com/ESA.

Online applications are easy, fast and convenient. To learn more, visit sdge.com/assistance.

¿Necesitas ayuda con tu cuenta de energía?

Puedes calificar para un descuento en tu cuenta. Los programas de asistencia de SDG&E ayudan a reducir tu cuenta mensual de energía mientras mantienes tu hogar cómodo.

Programa de Tarifas Alternativas de Energía de California (CARE, por sus siglas en inglés): Ahorre un 30% o más cada mes en tu cuenta. Averigua si calificas en sdge.com/CARE.

Programa de Asistencia de Tarifa Eléctrica Familiar (FERA, por sus siglas en inglés): Si no calificas para CARE, puedes calificar para FERA. Podrías recibir un descuento del 18% en tu cuenta de electricidad. Visita sdge.com/FERA para obtener más información.

EL Programa de Energy Savings Assistance (ESA): El programa ESA ofrece mejoras de eficiencia energética para el hogar sin costo a clientes que cumplen con los requisitos de ingresos. Obtén más información en sdge.com/ESA.

Las aplicaciones en línea son fáciles, rápidas y convenientes. Para obtener más información, visita sdge.com/asistencia.

MONTHLY ENERGY TIP

Keep heat out of your kitchen:

Avoid using the oven when possible. Choose a microwave, slow cooker, air fryer or outdoor grill to help keep your home cooler. Get more tips at sdge.com/SimpleSteps.

Payment arrangements can help

Need more time to pay your energy bill? Payment arrangements can make it easier to manage your payments and avoid service interruptions.

Depending on your account eligibility, you may be able to:

- Request a payment extension for extra time to pay.
- Set up a payment plan and spread payments over time.

You can view and manage payment arrangements online through My Energy Center or through the My Energy Center mobile app.

Learn more and explore your options at sdge.com/PaymentArrangements.

Buying or leasing a pre-owned electric vehicle (EV)? You may be eligible for up to \$4,000 in rebates based on household income. Learn more at sdge.com/GoPOEV.

Do you have a disability or use a medical device requiring electricity for your health and safety? Let us know at sdge.com/AFN.
