

# 94969 Public Sector- Federal Request for Abstract

## Introduction

As part of SDG&E's solicitation schedule and to comply with D.18-01-004, SDG&E will be requesting abstracts that will serve the local Public Sector- Federal sub-sector market. This is the first stage of the solicitation process beginning in **October 2019**. The Public Sector- local Federal program includes customers who are tax-payer funded, have political mandates, and must go through a public budgeting and decision making process. Within Public sector includes a subsector comprised of the local Federal Market which include such customers as Federal Buildings, US Postal Service, Hospitals, Ports, Military Bases and Tribal Nations. The potential for savings is great for this market and the Company is looking for a comprehensive solution that reliably captures and documents cost-effective energy (kWh, kW, and/or therm) savings applicable to these customers which will also provide a path to Zero Net Energy (ZNE) for these customers. If the bidder submits a successful abstract, the bidder will be invited to participate in the RFP.

Stage 1 is a Request for Abstract ("RFA"), and Stage 2 is a Request for Proposal ("RFP") for organizations selected from Stage 1. The RFA will enable bidders ("Bidder" or "Contractor") to provide sufficient information for the California Investor Owned Utilities ("IOUs") to narrow down the selection to proceed to Stage 2, at which time we will issue a full RFP. It is not intended that Bidders prepare a detailed Abstract in Stage 1. Instead, it is important that Bidders should use the Abstract to provide enough information about the design, implementation and management of a proposed program, targeted market and customer segments, and overall program design and goals.

## Purpose and Objectives

The purpose of this RFA is to evaluate abstracts for program design and implementation services for the Public Sector- Federal Program. Key elements to consider when bidding on the Public Sector- Federal RFA:

- Program Overview
- Program Design
- Program Operations
- Compliance
- Savings Potential
- Adherence to Requirements

If the abstract is successful, the bidder will be asked to submit a proposal at a later date that will include detailed information regarding information provided in the Abstract along with additional information to further validate the proposal.

## PowerAdvocate Registration

**SDG&E will manage this event through Power Advocate's sourcing platform. Interested bidders will need to register in Power Advocate to access all future communications and, upon its release, the RFA for Public Sector- Federal program.**

All Bidders are required to register in Power Advocate to access the RFA documents, submit questions, and submit a Public Sector- Federal Program Abstract. Bidders can register in Power Advocate using the following URL:

(<https://www.poweradvocate.com>). Apply to the event through the "Opportunities" portal, search for the SDG&E event, click the key to request access to the event.

*Are you registering for a specific Event:\* click the 'Yes' button*  
*Who referred you to this Event:\* PEPMA Announcement*  
*Name of that individual's company:\* San Diego Gas & Electric Company*  
*Name or description of the Event: 94969 Public Sector- Federal Request for Abstract*  
*Click "Continue"*
