**NOTIFICATION OF
SAN DIEGO GAS & ELECTRIC COMPANY'S
REQUEST TO INCREASE ELECTRIC RATES
NO. A.21-12-006**

WHY AM I RECEIVING THIS NOTICE?

On December 13, 2021, San Diego Gas & Electric Company (SDG&E®) filed an application with the California Public Utilities Commission (CPUC) for approval of a Real Time Pricing (RTP) Pilot. If approved, the application will result in an **increase in electric rates**, starting January 1, 2023. The total costs of the requested improvements and associated support are approximately \$2.6 million over 9 years. As authorized in CPUC Decision (D.) 21-07-010, SDG&E requests the approved amount be recorded in a proposed new balancing account.

WHY IS SDG&E REQUESTING THIS RATE INCREASE?

- SDG&E was required by CPUC D.21-07-010 to propose an RTP dynamic rate pilot. SDG&E is submitting this application to comply.
- The proposed RTP pilot will give pilot participants day-ahead hourly price signals, which will allow them to adjust their electric usage accordingly. The potential benefits of an RTP rate that are being tested by the pilot include: reduced grid costs, reduction in greenhouse gases, increased use of renewable energy and improvements in grid reliability.
- The application covers potential costs associated with planning and implementing the pilot, such as obtaining stakeholder input, building out system enhancements, customer marketing and outreach, customer notifications and establishing a team that will oversee and evaluate the pilot.

(Continued inside)

HOW COULD THIS AFFECT MY MONTHLY ELECTRIC RATES?

If the CPUC approves SDG&E's request for an RTP Pilot in this application, the average bill for a typical bundled residential customer¹ living in the inland and coastal climate zone and using 400 kWh per month would increase \$0.02 (or 0.0%) in 2023. Individual customer bills may vary. If approved, new rates would become effective with the next available rate change.

Customer Class	Total Rates ²		Change	
	Current 11/1/2021 ³ (¢ / kWh)	Proposed Rates (¢ / kWh)	¢ / kWh	%
Residential	32.072	32.079	0.007	0.02%
Small Commercial	28.876	28.882	0.006	0.02%
Medium and Large C&I	26.090	26.094	0.004	0.02%
Agriculture	20.026	20.030	0.004	0.02%
Lighting	26.140	26.147	0.007	0.03%
System Total	28.036	28.041	0.005	0.02%

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SDG&E's request will not have any impact on gas rates.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

¹ A bundled customer is one who takes both Utility Distribution Company (UDC) and commodity service from SDG&E, such as on rate Schedule TOU-DR1.

² Represents customers who take bundled service.

³ Rates effective 11/1/2021 per Advice Letter 3855-E.

Parties to the proceeding may review SDG&E's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov or visit PublicAdvocates.cpuc.ca.gov.
