

FACILITY ASSESSMENT SERVICE PROGRAM

A Virtual Commissioning Service

Easily Learn Where Energy is Wasted and How You Can Save on Your Bills!

The Facility Assessment Service Program offers virtual commissioning at no cost that can help you pinpoint where your facility is wasting energy, potentially reducing your annual energy costs by 5-10%. An expert energy advisor will remotely analyze data drawn from your SDG&E® smart meter and provide recommendations for low-cost and no-cost improvements to your facility's operations that can immediately reduce your energy usage. Take advantage of this no-cost program today.

WHAT TO EXPECT

Step 1 - An energy advisor reviews your smart meter data

Step 2 - An energy advisor presents custom low-cost and no-cost recommendations to you

Step 3 - Take action to implement savings recommendations

Step 4 - Your energy advisor calculates your savings and reports back to you

IS THE FACILITY ASSESSMENT SERVICE PROGRAM RIGHT FOR YOU?

An Energy Advisor can help with:

- Managing unexpected increases in energy usage
- Lowering energy demand
- Assistance finding energy efficient solutions
- Learning when your building uses the most energy
- Achieving sustainability and energy efficiency goals

RECEIVE EXPERT ENERGY EFFICIENCY ADVICE!

CAN I LOWER MY ENERGY USAGE?

Your Energy Advisor will help you identify energy saving opportunities such as:

- Adjusting heating and cooling schedules to better match actual occupancy
- Automatically turning off unneeded equipment overnight using smart timers
- Managing equipment start-up and shut-down schedules to reduce waste
- Identifying energy saving opportunities through an after-hours walkthrough

"The Facility Assessment Service team has helped us find several no cost energy consumption savings opportunities. We have already been able to save money by identifying errors in our HVAC programming and also discovered that our weekend programming was incorrect and we were running AC over weekend nights."

-Business Owner
