

Subsidized Housing Assistance Relief for Energy (SHARE)

Utility bills should not stand between you and your home.

Are you an SDG&E® customer and are approved for subsidized housing? You may be eligible for funds to help pay your utility bill if:

- Your utility bills are the last barrier to acquiring or keeping your housing.
- You live in government-supported housing or have a housing voucher, OR you have been accepted for government-supported housing or a voucher.

For more information or to see if you are eligible, contact us at **1-866-463-0070**.

Please have account number, certificate of homelessness, eviction notice and/or acceptance into subsidized housing available.

Funds will only be available one time per year per household and will be evaluated on a case-by-case basis. This is a program that will run until December 2019, or until all funds are used.
