Electric charges and credits:

- 1 Electricity Import kWh:** This shows you how much and when your system used electricity from the grid.
- 2 Non-Nettable Charges:** Required charges and not eligible to be offset by Delivery Export Credits or Generation Export Credits. These charges include: monthly minimum charges, customer charges, meter charges, facilities charges, basic service charges, demand charges and surcharges, non-bypassable charges and any fixed charges.
- 3 Delivery Import Charges:** Charges for delivering electricity to your location, as well as other services including billing, customer care services, and maintaining and modernizing infrastructure.
- 4 Generation Import Charges:** Charges for the electricity you used in your home or business.
- 5 Delivery Export Credits:** Credits calculated based on how much energy your system sent to the grid, as well as the value of the energy at that time of day. Delivery Export Credits can only be used to offset Delivery Import Charges.
- 6 Generation Export Credits:** Credits are calculated based on how much energy your system sent to the grid and the value of the energy at that time of day. Generation Export Credits can only be used to offset Generation Import Charges.
- 7 Applied Delivery Export Credits:** The amount of Delivery Export Credits applied to offset any Delivery Import Charges this bill period.
- 8 Applied Generation Export Credits:** The amount of Generation Export Credits applied to offset any Generation Import Charges this bill period

SDG&E® year-to-date solar billing plan summary:

- 9 Estimated Annual True-Up Adjustment:** An estimate of the charge or credit you will receive on your Annual True-Up bill. This monthly estimate accounts for net export compensation that has previously been credited within your true-up period.
- 10 YTD Net kWh:** The total amount of energy imported and exported, by kWh, from your solar system. If this value is negative, your system exported more to the grid than it used.
- 11 YTD Non-Nettable Balance:** The running total of Non-Nettable charges and credits for the current True-Up period.
- 12 YTD Delivery Balance:** The running total of delivery charges and credits for the current True-Up period.
- 13 YTD Remaining Delivery Export Credits:** The amount of Delivery Export Credits available for you to apply to future Delivery Import Charges within the current True-Up period.
- 14 YTD Generation Balance:** The running total of generation charges and credits for the current True-Up period.
- 15 YTD Remaining Generation Export Credits:** The amount of Generation Export Credits available for you to apply to future Generation Import Charges within the True-Up period.
