

Pricing Plans to Fit Your Lifestyle

A Semptra Energy utility®

Choosing the right residential pricing plan can help you control your energy bill. Find the plan that fits your needs.

When Matters – Time-of-Use Pricing Plans			When Time Isn't a Factor
<p>Time-of-Use puts you in control. If you can shift some of your energy use to lower-cost time periods outside 4 p.m. - 9 p.m., you can lower your energy bill and make better use of renewable energy sources when they are available. Time-of-Use plans are not subject to the High Usage Charge.</p>			<p>Consistent pricing every day; use less, pay less.</p>
<p>TOU-DR1</p> <ul style="list-style-type: none"> Three pricing periods allowing for more opportunities to save <p>THREE TIME PERIODS:</p> <ol style="list-style-type: none"> On peak: Most expensive time 4 p.m. - 9 p.m. every day Super off-peak: Lowest cost time Midnight - 6 a.m. on weekdays and Midnight - 2 p.m. on weekends and holidays Off-peak: Every other time of day 	<p>TOU-DR2</p> <ul style="list-style-type: none"> More consistent pricing with two pricing periods, 7 days a week <p>TWO TIME PERIODS:</p> <ol style="list-style-type: none"> On peak: More expensive time 4 p.m. - 9 p.m. every day Off-peak: Less expensive time Every other time of day 	<p>TOU-DR-P</p> <ul style="list-style-type: none"> Like TOU-DR1, but with potential added savings on statewide conservation days When demand for energy is high, you may be asked to conserve on specific days between 2 p.m. - 6 p.m. <p>THREE TIME PERIODS:</p> <ol style="list-style-type: none"> On peak: Most expensive time 4 p.m. - 9 p.m. every day Super off-peak: Lowest cost time Midnight - 6 a.m. on weekdays and Midnight - 2 p.m. on weekends and holidays Off-peak: Every other time of day 	<p>DR</p> <ul style="list-style-type: none"> A non-Time-of-Use plan where costs are based on how much energy you use, not when No time periods to think about If you can use less energy, you could save on your bill Subject to the High Usage Charge if you are a high-energy user
<div style="display: flex; align-items: center;">  <div style="margin-left: 20px;"> <p><i>Energy costs more during the on-peak hours of 4 p.m. - 9 p.m. Shift your energy use outside these times and you could save.</i></p> </div> </div>			

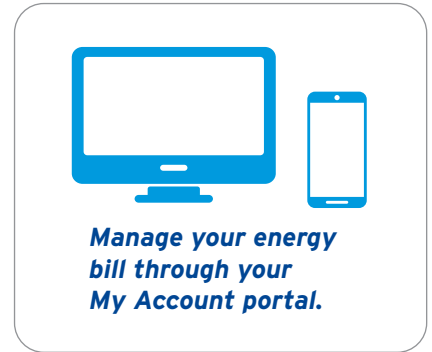

Electric Vehicle / Plug-in Hybrid Drivers	Rooftop Solar Customers
<p>EV-TOUS</p> <ul style="list-style-type: none"> A smart choice for EV owners who can charge overnight – very low overnight costs Pricing changes across <u>three time periods</u>: <ol style="list-style-type: none"> On peak: Most expensive time 4 p.m. - 9 p.m. Super off-peak: Lowest cost time Midnight - 6 a.m. on weekdays and Midnight - 2 p.m. on weekends and holidays Off-peak: Every other time of day To learn more, visit sdge.com/evplans 	<p>DR-SES</p> <ul style="list-style-type: none"> If your solar system generates more than you use, you could earn credits on your bill by sending excess energy back to the grid Pricing changes across <u>three time periods</u>: <ol style="list-style-type: none"> On peak: Most expensive time 4 p.m. - 9 p.m. Super off-peak: Lowest cost time Midnight - 6 a.m. on weekdays and Midnight - 2 p.m. on weekends and holidays Off-peak: Every other time of day

Stay connected with My Account

Your My Account portal provides key insights on how to better manage your energy bill.

- Compare your available pricing plan choices
- Review your daily energy use to better understand how and where you can save
- Sign up for notifications
- Set energy use and spending goal alerts
- Get personalized savings for your home

To learn more, visit sdge.com/myaccount.

Helpful programs and services

If you meet certain household size and income requirements, you may qualify for money-saving programs:

- A discount of 30% or more each month on your SDG&E® bill through the California Alternate Rates for Energy (CARE) program
- A reduced rate for electricity through the Family Electric Rate (FERA) program
- Low- and no-cost home energy upgrades through the Energy Savings Assistance (ESA) program

Other programs that may help are:

- Medical Baseline Allowance program – savings for people with qualifying medical conditions
- Level Pay Program – evens out the highs and lows for a more predictable bill each month

To learn more, visit sdge.com/assistance.

Energy savings tips

Regardless of your pricing plan, small changes can add up to real savings. Save even more on Time-of-Use by shifting activities like doing laundry or running the dishwasher outside of 4 p.m. - 9 p.m.

Power down

Switch off electronic devices, such as computers and monitors, when not in use. Electronics in standby mode still draw power.

Upgrade your lighting

Along with LED light bulbs, use ENERGY STAR® light fixtures, which use less energy and produce less heat.

Keep your fridge full

A full fridge works more efficient than an empty one. Pack cold items together to keep your fridge and freezer cool. Consider storing a supply of emergency water bottles to keep your fridge full.

Adjust the temperature

Adjusting the thermostat a few degrees down in the winter and up in the summer, especially between 4 p.m. - 9 p.m., can save energy and money.

Use small appliances

Instead of the oven, use small appliances that use less energy such as a microwave, toaster oven or slow cooker.

Adjust your water heating

Water heating can be the second largest energy expense after AC. Turn down the thermostat on your water heater a few degrees (120°F).
