Available toptons percenting eligibility & cutchenr demand. Basic Striver's en will be determined each norm hased on the subserver's maximum annual domand. If unavailable or less than 50% of 15-min. Interval data is available, domand will be calculated by dividing total WMh by number of days in the billing period times 24 hours. <sup>1</sup> The Maximum Demand Charge table based on the highest demand recorded in during the bill cycle. Please et "Maximum Demand" definition in Electric Rule 1 for further details. <sup>1</sup> The Ox-Posk Previo Demand Charges table gased to the highest demand recorded in the Develage robust of the bill cycle. <sup>1</sup> Critical Peak Pricing (CPP) Days apply from 2 PM to 6 PM when Reduce Your Use (RFU) events are called which can occur any day of the week year round.
