

49 CFR 192.615

This document is current through the February 25, 2019 issue of the Federal Register. Title 3 is current through February 1, 2019.

Code of Federal Regulations > TITLE 49 -- TRANSPORTATION > SUBTITLE B -- OTHER REGULATIONS RELATING TO TRANSPORTATION > CHAPTER I -- PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION > SUBCHAPTER D -- PIPELINE SAFETY > PART 192--TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS > SUBPART L -- OPERATIONS

§ 192.615 Emergency plans.

(a) Each operator shall establish written procedures to minimize the hazard resulting from a gas pipeline emergency. At a minimum, the procedures must provide for the following:

- (1)** Receiving, identifying, and classifying notices of events which require immediate response by the operator.
- (2)** Establishing and maintaining adequate means of communication with appropriate fire, police, and other public officials.
- (3)** Prompt and effective response to a notice of each type of emergency, including the following:
 - (i)** Gas detected inside or near a building.
 - (ii)** Fire located near or directly involving a pipeline facility.
 - (iii)** Explosion occurring near or directly involving a pipeline facility.
 - (iv)** Natural disaster.
- (4)** The availability of personnel, equipment, tools, and materials, as needed at the scene of an emergency.
- (5)** Actions directed toward protecting people first and then property.
- (6)** Emergency shutdown and pressure reduction in any section of the operator's pipeline system necessary to minimize hazards to life or property.
- (7)** Making safe any actual or potential hazard to life or property.
- (8)** Notifying appropriate fire, police, and other public officials of gas pipeline emergencies and coordinating with them both planned responses and actual responses during an emergency.
- (9)** Safely restoring any service outage.
- (10)** Beginning action under § 192.617, if applicable, as soon after the end of the emergency as possible.
- (11)** Actions required to be taken by a controller during an emergency in accordance with § 192.631.

(b) Each operator shall:

- (1)** Furnish its supervisors who are responsible for emergency action a copy of that portion of the latest edition of the emergency procedures established under paragraph (a) of this section as necessary for compliance with those procedures.

49 CFR 192.615

- (2) Train the appropriate operating personnel to assure that they are knowledgeable of the emergency procedures and verify that the training is effective.
- (3) Review employee activities to determine whether the procedures were effectively followed in each emergency.
- (c) Each operator shall establish and maintain liaison with appropriate fire, police, and other public officials to:
- (1) Learn the responsibility and resources of each government organization that may respond to a gas pipeline emergency;
 - (2) Acquaint the officials with the operator's ability in responding to a gas pipeline emergency;
 - (3) Identify the types of gas pipeline emergencies of which the operator notifies the officials; and
 - (4) Plan how the operator and officials can engage in mutual assistance to minimize hazards to life or property.
- (d) [Redesignated as § 192.616. See [59 FR 6585](#), Feb. 11, 1994]

Case Notes

LexisNexis® Notes

[Minnegasco v. Minnesota PUC, 549 N.W.2d 904, 1996 Minn. LEXIS 368](#) (Minn June 13, 1996).

Overview: Public utility commission was not authorized to impute goodwill value enjoyed by affiliate to utility company because it was not a cost of providing services. Repair costs were allocated to utility company because law required it to fix gas leaks.

- Federal standards require that a natural gas utility company provide a prompt and effective response to every notice it receives of gas detected inside or near a building, [49 C.F.R. § 192.615\(a\)\(3\)\(i\) \(1995\)](#), and to make safe any actual or potential hazard to life or property. [49 C.F.R. § 192.615\(a\)\(7\)](#). [Go To Headnote](#)
