ATTACHMENT A – DECLARATION OF LAREE FELAN

ATTACHMENT B – DECLARATION OF AARON FRANZ REGARDING CONFIDENTIALITY OF CERTAIN DATA/DOCUMENTS PURSUANT TO D.16-08-024, *et al.*

1 **II. ERRA, TCBA, CTC AND LGBA BACKGROUND**

2 Pursuant to California Public Utilities Commission (“Commission”) Decisions (“D.”) 02-
3 10-062 and D.02-12-074, the purpose of the ERRA balancing account is to provide full recovery
4 of SDG&E’s energy procurement costs associated with serving SDG&E’s bundled service
5 customers. Energy procurement costs include expenses associated with the California
6 Independent System Operator (“CAISO”) such as energy and ancillary services load charges,
7 contract costs, CAISO-related costs, and hedging costs. The ERRA records revenues from
8 SDG&E’s Electric Energy Commodity Cost (“EECC”) rate schedule, adjusted to exclude
9 commodity revenues assigned to the Non-Fuel Generation Balancing Account (“NGBA”),¹ and
10 other Commission approved adjustments.

11 The purpose of the TCBA is to accrue all CTC revenues and recover all CTC-eligible
12 generation-related costs. Pursuant to D.02-12-074 and D.02-11-022, payments to Qualifying
13 Facilities (“QFs”) that are above the market benchmark proxy are charged to the TCBA. Eligible
14 CTC expenses reflect the difference between the market proxy and the contract price of costs
15 associated with certain QF contracts. SDG&E proposes to change this cost recovery methodology
16 to discontinue the market benchmark proxy for SDG&E’s CTC-eligible resources. As of 2025,
17 SDG&E will have two small CTC-eligible resources remaining with TCBA cost recovery, both of
18 which have no predetermined contract expiration date. Because the benchmark used to divide net
19 contract costs is based on forecasted energy prices, the up-to-market net amount calculated to
20 record in ERRA may be different than the actual up-to-market net costs. This can cause
21 under/overcollections in ERRA which are paid by bundled customers. SDG&E proposes to use
22 actual CAISO revenues as the market value of its two remaining CTC contracts for calculating the

¹ In compliance with D.03-12-063, the NGBA became effective January 1, 2004.

1 amount of contract costs to be recovered in ERRAs, which may prevent any under/overcollections
2 in ERRAs that are resulting from the current CTC cost recovery mechanism.

3 SDG&E raised this issue in its opening comments filed August 16, 2023, in response to the
4 *Administrative Law Judge Ruling Directing Parties to Comment Regarding Fixed Generation Costs*
5 (August 1, 2023) in Track 2 of the 2024 ERRA Forecast proceeding (A.23-05-013). In the
6 subsequent Track 2 scoping memo issued by the Commission on April 2, 2024, the Commission
7 stated that the Investor-Owned Utilities' ("IOUs") specific items related to fixed generation costs
8 "would be better addressed in separate proceedings."² Accordingly, and in keeping with the goal of
9 preventing cost shifts between groups of customers, SDG&E raises the issue and proposed change
10 in this 2025 ERRA Forecast filing.

11 The purpose of the LGBA is to record the revenues and costs of generation and other
12 energy sources where the Commission has determined that the resource is subject to the Cost
13 Allocation Mechanism ("CAM"). Such generation may take the form of purchase power
14 agreements, company-owned generation units associated with new generation resources, and any
15 other resources approved by the Commission for CAM treatment.

16 **III. 2025 ERRA, CTC, AND LG REVENUE REQUIREMENT FORECASTS**

17 As shown in Table 1 below, SDG&E's 2025 ERRA revenue requirement forecast is
18 \$432.299 million, including forecasted GHG costs.³ The direct testimony of SDG&E witness Mr.
19 Jimmy Elias provides a detailed discussion of the GHG costs.

² A.23-05-013, Assigned Commission's Scoping Memo and Ruling (April 2, 2024) at 6.

³ All figures in this testimony exclude Franchise Fees and Uncollectibles ("FF&U").

TABLE 1
ERRA REVENUE REQUIREMENT
(\$Millions of Dollars)

| No. | Component | 2025 Forecast | | 2024 Forecast | | Change from Prior Year | |
|-----|--------------|---------------|----------------|---------------|----------------|------------------------|-----------------|
| 1. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 2. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 3. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 4. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 5. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 6. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 7. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 8. | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| 9. | TOTAL | | 432.299 | | 481.194 | | (48.895) |

The forecasted cost components set forth in the line items contained in Table 1 above, and the reasons for the \$(48.895) million decrease in the 2025 ERRA revenue requirement forecast – as compared to the 2024 ERRA revenue requirement (as submitted in the 2024 Forecast) – are addressed in Mr. Elias’s testimony.

As shown in Table 2 below, SDG&E’s 2025 CTC revenue requirement forecast is \$2.113 million.

TABLE 2
CTC REVENUE REQUIREMENT
(\$Millions of Dollars)

| No. | Component | 2025 Forecast | 2024 Forecast | Change from Prior Year |
|-----|--------------|---------------|---------------|------------------------|
| 1. | QF Contracts | 2.113 | 4.918 | (2.805) |
| 2. | TOTAL | 2.113 | 4.918 | (2.805) |

As mentioned in my testimony above, SDG&E proposes to adopt a new cost recovery methodology for CTC-eligible resources. In this forecast filing, CTC-eligible purchase power contract expenses are now recorded to the ERRA up to the forecasted market value of the contract as represented by the forecasted CAISO revenues. The difference between the actual contract

price and the forecasted CAISO revenues is included in the 2025 CTC forecast. Actual costs recorded to the ERRRA and TCBA balancing accounts in 2025 will use actual CAISO revenues received.

As shown in Table 3 below, SDG&E’s 2025 Local Generation Balancing Account (“LGBA”) revenue requirement forecast is \$214.369 million.

TABLE 3
LGBA REVENUE REQUIREMENT
(\$Millions of Dollars)

| No. | Component | 2025 Forecast | 2024 Forecast | Change from Prior Year |
|-----|-----------------------------|----------------|----------------|------------------------|
| 1. | Combined Heat & Power | | | |
| 2. | Energy Storage | | | |
| 3. | Peakers & Resource Adequacy | | | |
| 4. | Local Generation GHG | | | |
| 5. | CAM portion of MCAM | | | |
| 6. | TOTAL⁴ | 214.369 | 205.052 | 9.317 |

The LGBA was authorized in D.13-03-029. The LGBA records the LG costs and the revenues received from SDG&E’s LG rate. On a monthly basis, the LGBA compares the LG costs with the revenues received. Interest is applied to any over- or under-collected balance at the three-month Commercial Paper rate. The LGBA utilizes sub-accounts for each generation resource. In addition, D.21-05-004 was approved on May 6, 2021, clarifying direct GHG costs of a resource are appropriately recorded in the balancing account to which cost recovery of the underlying resource is approved. In accordance with the decision SDG&E has included GHG costs in the 2025 Forecast for LGBA.

IV. REQUEST TO RECOVER PROJECTED YEAR-END 2024 LGBA BALANCE

In this application, SDG&E requests recovery of the projected 2024 year-end balance recorded to LGBA of \$(103.124) million, adjusted for a two-year amortization of the investment

⁴ Sums may not equal due to rounding.

1 tax credits as discussed below. In Ms. Wissman’s testimony, SDG&E is requesting \$(51.6)
2 million, which is the \$(103.124) million mentioned above less the \$51.524 million for investment
3 tax credits captured in 2025. This request is made pursuant to Resolution E-5217, which directs
4 the IOUs to update projected year-end balances for each of its Regulatory Accounts in its annual
5 year-end Consolidated Electric Revenue and Rate Change Advice Letter.⁵ Therefore, SDG&E
6 requests that the Commission authorize this sum to be included in its year-end Consolidated
7 Electric Rate Change.

8 **V. INVESTMENT TAX CREDITS**

9 In August 2022, the United States congress passed the Inflation Reduction Act (IRA)
10 which included Investment Tax Credits (“ITCs”) for renewable energy infrastructure, including
11 standalone energy storage technology. SDG&E has eight energy storage and microgrid projects
12 that came online in 2023 and are eligible for these credits. SDG&E is eligible to claim the ITCs
13 on these projects on its 2023 federal tax return, which is expected to be filed in October 2024.
14 SDG&E intends to provide these benefits to customers via a reduction to the same account as the
15 capital projects after the final amount of the ITCs are determined at the time of filing the federal
16 tax return. In December 2023, SDG&E included the estimated tax credits in the 2023 year-end
17 PABA and LGBA balancing accounts. The recorded amount of estimated tax credits in PABA is
18 \$94.234 million and in LGBA is \$102.963 million. The recorded amounts will be updated in
19 SDG&E’s October Update filing to reflect final amounts captured in SDG&E’s filing of 2023
20 federal tax returns. SDG&E plans to apply the final tax credits towards customer rates over a two-
21 year period starting 2025. The treatment of tax credits in customer rates is further discussed in the
22 testimony of SDG&E witness Ms. Wissman.

⁵ Resolution E-5217 at Ordering Paragraph (“OP”) 3.

1 **VI. COMPARISON OF 2023 RECORDED VS ACTUAL YEAR-END BALANCES IN**
2 **GHG BALANCING ACCOUNTS**

3 In accordance with Finding of Fact 13 of D.14-10-033, utilities must reconcile forecast
4 amounts with recorded amounts until all actuals are available for the forecast year. Consistent
5 with this methodology, SDG&E provides a comparison of the 2023 year-end recorded/forecasted
6 balances with the 2023 year-end actual balances in three GHG balancing accounts in Table 4
7 below. More specifically, (1) GHG allowance revenues are recorded in the GHG Revenue
8 Balancing Account (“GHGRBA”); (2) expenses are recorded in the GHG Customer Outreach and
9 Education Memorandum Account (“GHGCOEMA”); and (3) expenses are recorded in the GHG
10 Administrative Costs Memorandum Account (“GHGACMA”).

11 **TABLE 4**
12 **COMPARISON OF 2023 RECORDED VS ACTUAL YEAR-END BALANCES IN GHG**
13 **BALANCING ACCOUNTS**

| Line | Description | 2023 Recorded ¹ (\$) | 2023 Actual (\$) | Difference |
|------|---|---------------------------------|---------------------|---------------------|
| | (1) GHGRBA | | | |
| 1 | Beginning Balance 1/1/2023 | (1,132,448) | (1,132,448) | - |
| 2 | Allowance Revenue | (189,801,672) | (214,387,613) | (24,585,941) |
| 3 | Revenue returned to customers | 194,198,170 | 184,352,266 | (9,845,904) |
| 4 | Franchise Fees and Uncollectibles | (2,327,885) | (2,209,861) | 118,024 |

| 16 | Transfer from GHGRBA ³ | - | (58,000) | (58,000) |
| 17 | Expenses | 18,536 | 33,727 | 15,191 |
| 18 | Interest | (2,052) | (1,899) | 153 |
| 19 | Ending Balance 12/31/2023 | (36,932) | (79,588) | (42,656) |

| Line | Description | 2023 Recorded ¹ (\$) | 2023 Actual (\$) | Difference |
|------|-------------|---------------------------------|------------------|------------|
|------|-------------|---------------------------------|------------------|------------|

¹ Per A.23-05-013 (2024 ERRR Forecast Update October 13, 2023) Attachment G. Template D-1: Annual Allowance Revenue Receipts and Customer Returns; and Template D-3: Detail of Outreach and Administrative Expenses. Recorded amounts represent actual recorded activity from January through August 2023 and forecasted amounts from September through December 2023.

² The 2023 Actual column shows the approved 2024 GHGCOEMA forecast per D.23-12-021, which was approved in December 2023.

³ The 2023 Actual column shows the approved 2024 GHGACMA forecast per D.23-12-021, which was approved in December 2023.

⁴ This represents the program funding and true-ups for SOMAH. The 2023 Recorded column shows forecast funding and the Actual column shows the approved funding per D.23-12-021, which was approved in December 2023.

⁵ This represents the program funding for DAC-SASH. The 2023 Recorded column shows forecast funding and actual column shows the approved funding per D.23-12-021, which was approved in December 2023.

1 **VII. GREEN TARIFF SHARED RENEWABLE BALANCING ACCOUNT (GTSRBA)**

2 Per D.15-01-051, SDG&E established the GTSRBA⁶ to record the difference between the
3 revenues collected from individual customers electing to participate in the GTSR program and the
4 incremental costs incurred to serve customers participating in that program. The GTSR program
5 consists of both a Green Tariff (“GT”) component and an Enhanced Community Renewables
6 (“ECR”) component which are recorded in separate subaccounts within the GTSRBA. SDG&E’s
7 GTSR program (SDG&E branded as “EcoChoice”) began in 2016 and recorded activity through
8 2022, as described in SDG&E’s Annual GTSR Program Progress Report filed on March 15, 2023
9 (A.12-01-008).

10 On August 25, 2022, the CPUC issued a ruling in its Application A.22-05-023 which
11 suspended SDG&E’s EcoChoice program.⁷ Due to the suspension, SDG&E is not requesting any
12 2025 revenue requirement for GTSRBA. As of December 2023, the balance in GTSRBA is
13 approximately \$2.870 million. SDG&E is not requesting recovery of this balance at this time,

⁶ See SDG&E Advice Letter (“AL”) 2889-E, approved June 23, 2016 and effective May 28, 2016.

⁷ A.22-05-023, Administrative Law Judge’s Ruling Granting Request for Green Tariff Suspension (August 25, 2022) at OP 1.

1 because the Green Access Proceeding (“GAP”) has not yet concluded.⁸ In addition, SDG&E has
2 not been directed to recover the ending balance or terminate the program.

3 **VIII. TREE MORTALITY NON-BYPASSABLE CHARGE BALANCING ACCOUNT**
4 **(TMNBCBA)**

5 Per D.18-12-003, SDG&E’s AL 3343-E established the TMNBCBA to record the tree
6 mortality related procurement costs.⁹ As noted in D.18-12-003 at OP 9, the TMNBCBA cost will
7 be recovered through the public purpose programs (“PPP”) charge.

8 As shown in Table 5 below, SDG&E’s 2025 TMNBCA revenue requirement forecast is
9 [REDACTED] million, which is described in the testimony of Mr. Elias.

10 **TABLE 5**
11 **TMNBCA REVENUE REQUIREMENT**
12 **(\$Millions of Dollars)**

| No. | Component | 2025 Forecast | 2024 Forecast | Change from Prior Year |
|-----|---|---------------|---------------|------------------------|
| 1. | Contract Costs | [REDACTED] | [REDACTED] | [REDACTED] |
| 2. | CAISO Revenues | [REDACTED] | [REDACTED] | [REDACTED] |
| 3. | Renewable Energy Credits Sales Revenues | [REDACTED] | [REDACTED] | [REDACTED] |
| 4. | Resource Adequacy Sales Revenues | [REDACTED] | [REDACTED] | [REDACTED] |
| 5. | TOTAL | [REDACTED] | [REDACTED] | [REDACTED] |

13 **IX. SOLAR ON MULTIFAMILY AFFORDABLE HOUSING (SOMAH) PROGRAM**

14 D.17-12-022, OP 4, at 69, states that the IOUs “each shall reserve 10% of the proceeds
15 from the sale of greenhouse gas allowances defined in Public Utilities Code Section 748.5 through
16 its annual ERRA proceedings for use in the Solar on Multifamily Affordable Housing Program,
17 starting with its ongoing 2018 ERRA forecast proceeding.” D.20-04-012 continued the
18 authorization of funds allocated to the SOMAH program through June 30, 2026.

⁸ See generally, A.22-05-023, Application of San Diego Gas & Electric Company to Review Green Access Programs Pursuant to Decisions 18-06-027 and 21-12-036 (May 21, 2022).

⁹ Two supplemental ALs were filed for AL 3343-E. AL 3343-E-A was submitted on April 19, 2019 and approved on July 19, 2019 with a July 2, 2019 effective date. AL 3343-E-B was submitted on May 31, 2019, approved on July 19, 2019 with an effective date of July 2, 2019.

In D.22-09-009, the Commission approved the petition to modify D.17-12-022 and D.20-04-012 to simplify the process for forecasting and setting aside funding for the SOMAH Program. D.22-09-009 requires the SOMAH values be substantiated to show that the combined budget of all the utilities named in the decision is equal to or more than \$1 billion.

Pursuant to D.22-09-009, SDG&E presents the following Table 6 below which reflects that combined utility budgets.

| TABLE 6 - COMBINED IOU GHG PROCEEDS TO DETERMINE SOMAH SHARE METHODOLOGY | | | | |
|---|---|---|---|---|
| Line No. | IOU | 2023 Recorded GHG Proceeds (\$000) | 2024 Recorded GHG Proceeds^(a) (\$000) | 2025 Forecasted GHG Proceeds (\$000) |
| 1 | PG&E | \$544,616 | \$650,113 | \$907,824 |
| 2 | SCE | \$789,701 | \$985,139 | \$1,039,583 |
| 3 | SDG&E | \$214,387 | \$250,907 | \$271,311 |
| 4 | Liberty | \$6,282 | \$522 | N/A |
| 5 | PacifiCorp | \$17,848 | \$18,908 | N/A |
| 6 | Total | \$1,572,836 | \$1,905,592 | \$2,218,719 |
| (a) | 2024 Recorded GHG Proceeds includes January through March recorded, plus April through December forecast for each IOU. The final 2024 Recorded GHG Proceeds for all IOUs will be updated in the true-up advice letter to be filed by March 1, 2025. | | | |

Because the combined IOU GHG proceeds exceed an estimated \$100 million (\$2.218 billion x 10% = \$221.8 million), SDG&E utilized the set percentage adopted in D.22-09-009, Table 6 to set aside its SOMAH program funding from GHG proceeds for 2025 of \$12.016 million.

A. 2025 SOMAH Program Funding True-Up

D.20-04-012 directs each utility to provide a table showing how they reached the balance of their SOMAH prior year true-up stating:

Each utility shall include a true-up of the prior year’s authorized SOMAH set-aside amount, listed separately from the forecast year amount, in their applicable November update filings. This true-up will compare the prior year’s SOMAH set-aside to actual (i.e., not forecast) auction revenues, and adjust the total forecast

amount to reflect actual auction revenues. The true-up information shall be presented in a table in the same format as the untitled table in D.20-02-047 at page 20.¹⁰

Accordingly, SDG&E presents the following Table 7, below, which reflects SDG&E’s true-up of the prior year’s authorized SOMAH set-aside amount:

| Calendar Year ERRA Forecast | Recorded GHG Allowance Revenues | Set-Aside Based On 10% of Recorded GHG Allowance Revenue or the Proportionate Amount of \$100M | Previously Approved “Actual” Set-Aside | Difference (Actual Less Set-Aside Requirement) |
|--|---------------------------------|--|--|--|
| 2016 ¹ | \$40,779,160 | \$4,077,916 | \$4,077,916 | \$0 |
| 2017 ² | \$92,539,677 | \$9,253,968 | \$9,253,968 | \$0 |
| 2018 ³ | \$93,727,555 | \$9,372,756 | \$9,372,756 | \$0 |
| 2019 ⁴ | \$104,156,909 | \$10,415,691 | \$10,415,691 | \$0 |
| 2020 ⁵ | \$104,691,923 | \$10,469,192 | \$10,469,192 | \$0 |
| 2021 ⁶ | \$161,825,842 | \$14,517,611 | \$14,517,611 | \$0 |
| 2022 ⁷ | \$189,236,214 | \$13,549,896 | \$19,440,352 ⁵ | \$5,890,456 |
| 2023 ⁸ | \$214,387,613 | \$13,630,635 | \$12,015,972 | \$(1,614,663) |
| Total | \$1,001,344,893 | \$85,287,665 | \$89,563,458 | \$4,275,793 |
| ¹ \$4,077,916 set-aside for 2016 ERRA approved in D.20-01-005. ² \$9,253,968 set-aside for 2017 ERRA approved in D.20-01-005. ³ \$10,300,000 set-aside for 2018 ERRA approved in D.17-12-014; \$(927,245) true-up for 2018 approved in D.20-01-005. ⁴ \$10,115,640 set-aside for 2019 ERRA approved in D.18-12-016; \$199,565 true-up for 2019 approved in D.20-01-005; \$100,486 true-up for 2019 approved in D.21-01-017. ⁵ \$5,618,639 set-aside for 2020 approved in D.20-01-005; \$5,820,202 true-up for Jul-Dec 2020 approved in D.21-01-017; \$(760,623) true-up for Jan-Jun 2020 approved in D.21-01-017; \$(209,026) true-up for Oct-Dec 2020 approved in D.21-12-040. ⁶ \$11,583,644 set-aside for 2021 approved in D.21-01-017; \$2,933,967 true-up for 2021 approved in D.22-12-042. ⁷ \$19,440,352 set-aside for 2022 approved in D.21-12-040. The \$(5,890,456) true-up will be returned in A.24-05-XXX. ⁸ \$12,015,972 set-aside for 2023 approved in D.21-12-040. The \$1,614,663 true-up will be set aside in A.24-05-XXX. | | | | |

¹⁰ D.20-04-012 at 10.

¹¹ SDG&E submitted Table 7 to correspond to the SOMAH Program Funding True-up for 2023 in the Supplemental GHG Advice Letter 4392-E-A. The revised table reflects what has been submitted to the Energy Division for the SOMAH Program Funding True-up through 2023. Excludes FF&U.

1 **X. DAC-SASHBA**

2 The purpose of the DAC-SASHBA is to balance allocated GHG allowance revenues and
3 program costs. The DAC-SASH Balancing Account was established in 2019 in D.18-06-027 and
4 Advice Letter 3410-E. D.18-06-027 at OP 8 states that the DAC-SASH program will be funded
5 with GHG allowance proceeds if available and recovered through the PPP mechanism if GHG
6 allowance proceeds are unavailable.

7 The associated direct testimony of SDG&E witness Mr. Elias states that the total DAC-
8 SASH program funding is estimated to be \$1.095 million. The forecasted 2025 GHG allowance
9 revenues available for clean energy and energy efficiency programs will be sufficient to cover this
10 sum after setting aside funding for the SOMAH Program.

11 **XI. PORTFOLIO ALLOCATION BALANCING ACCOUNT (PABA)**

12 Pursuant to D.18-10-019 and Advice Letter 3318-E,¹² the purpose of the PABA is to
13 record the “above-market” costs and revenues associated with all generation resources that are
14 eligible for cost recovery through the PCIA rates, including SDG&E’s Utility-Owned Generation
15 (“UOG”). Costs recorded in each vintage subaccount will include, but are not limited to, fuel,
16 GHG costs, third party power purchase contracts costs, and UOG’s revenue requirement.

17 SDG&E’s 2025 PABA revenue requirement forecast includes the fuel costs for its electric
18 generation facilities, including Miramar Energy Facility I (“Miramar I”), Miramar Energy Facility
19 II (“Miramar II”), Palomar Energy Center (“Palomar”), Desert Star Energy Center (“Desert Star”),
20 and the Cuyamaca Peak Energy Plant (“Cuyamaca”). The actual fuel costs of Miramar I, Miramar
21 II, Palomar, Desert Star, and Cuyamaca are recorded in the PABA for recovery through
22 commodity rates.

¹² See SDG&E AL 3318-E, filed on December 10, 2018, approved on May 30, 2019 and effective January 1, 2019.

TABLE 8
PABA REVENUE REQUIREMENT
(\$Millions of Dollars)

| No. | Component | 2025 Forecast ¹³ | 2024 Forecast | Change from Prior Year |
|-----|--------------------------|-----------------------------|-----------------|------------------------|
| 1. | Supply ISO Revenues | | | |
| 2. | Contract Costs (non-CTC) | | | |
| 3. | Generation Fuel | | | |
| 4. | GHG Costs | | | |
| 5. | TOTAL | 127.722 | (33.223) | 160.946 |

As Table 8 indicates, SDG&E’s 2025 PABA revenue requirement forecast is \$127.722 million.¹⁴ In addition, D.19-10-001 authorized the recovery of the PABA prior year-end balance to be recovered through the ERRA Forecast filing. SDG&E requests recovery of the projected 2024 year-end balances recorded to PABA of \$(154.178) million, as shown in SDG&E witness Ms. Sheri Miller’s testimony workpapers. The proposed 2024 PABA year-end balance is projected based on three months of actuals (January through March of 2024) and nine months of forecasted expenses and revenues. The forecasted year-end balance will be updated in SDG&E’s October Update filing and will include actual recorded entries from January through August. Furthermore, the PABA year-end balance will be updated in SDG&E’s annual year-end process pursuant to Resolution E-5217. In Ms. Wissman’s testimony, SDG&E is requesting \$(107.06) million, which is the \$(154.178) million mentioned above less the \$47.118 million for investment tax credits captured in 2025.

Pursuant to D.22-01-023, SDG&E shall transfer the 2024 ending balance of ERRA to the most recent subaccount of PABA. The projected 2024 year-end balance of ERRA is \$34.093

¹³ Table 8 does not include the 2024 Year End Forecasted PABA balance of \$(154.178) million, as shown in Attachment C in Ms. Miller’s testimony.

¹⁴ The PABA revenue requirement figure in this testimony differs from that presented in the direct testimony of SDG&E witness Ms. Wissman because the PABA revenue requirement in this testimony does not include the above-market costs of utility owned generation (UOG) that will be transferred to PABA. UOG costs are approved in SDG&E’s GRC proceedings and therefore SDG&E is not requesting any changes to the total UOG costs in this ERRA Forecast Application.

1 million and will be updated in SDG&E’s October Update filing as well as SDG&E’s annual year-
2 end process pursuant to Resolution E-5217.

3 **XII. POWER CHARGE INDIFFERENCE ADJUSTMENT (PCIA)**
4 **UNDERCOLLECTION BALANCING ACCOUNT (CAPBA)**

5 Pursuant to D.18-10-019 and Advice Letter 3436-E,¹⁵ the purpose of the CAPBA is to
6 record the obligation that accrues for departing load (“DL”) customers in the event that the half-
7 cent per kWh PCIA rate cap is reached. The CAPBA is comprised of a subaccount for each
8 customer vintage, as well as a specific bundled subaccount, which capture the shortfall amount
9 that is financed by bundled customers for DL customers when the DL PCIA rate is capped, and
10 the repayment amount from DL customers to bundled customers.

11 D.21-05-030 in the PCIA Order Instituting Rulemaking, R.17-06-026, the Commission
12 removed the PCIA rate cap and required SDG&E to dispose of any remaining CAPBA balance in
13 PCIA Rates. SDG&E filed a 2020 CAPBA Trigger application (A.20-07-009) in July 2020. To
14 reduce the volatility that would result from incorporating the CAPBA Trigger revenues into PCIA
15 rates, the Commission adopted an amortization for the CAPBA Trigger balance, to amortize the
16 total balance of \$8.92 million in 2021, 2022, and 2023 PCIA rates. Accordingly, SDG&E’s 2020
17 CAPBA was implemented and amortized on March 1, 2021, through December 31, 2023.

18 D.23-12-021 authorized SDG&E’s request to transfer any remaining balance in the
19 CAPBA subaccounts to the corresponding PABA vintage subaccounts and close the CAPBA
20 preliminary statement.¹⁶ SDG&E is not requesting any 2025 revenue requirement for CAPBA. In
21 December 2023, the CAPBA undercollected balance of \$1.265 million was transferred to PABA,
22 effectively closing the CAPBA.

¹⁵ See SDG&E AL 3436-E, filed on September 30, 2019, and approved on October 30, 2019.

¹⁶ D.23-12-021 at 23-24, (citing to D.22-12-042 at 32 to 33.).

1 **XIII. MODIFIED COST ALLOCATION MECHANISM BALANCING ACCOUNT**
2 **(MCAMBA)**

3 In D.19-11-016, the Commission required the IOUs to procure additional generation
4 capacity on behalf of other load-serving entities (“LSEs”) in their service territories that elected to
5 opt-out of self-procurement (“opt out procurement”) or failed to acquire their share of the required
6 capacity after electing self-procurement (“backstop procurement”). Please refer to Ms. Wissman’s
7 testimony for required LSE’s procurement in greater detail.

8 Pursuant to D.22-05-015 and Advice Letter 4043-E,¹⁷ the purpose of MCAMBA is to
9 record the net costs related with the procurement of energy resources by SDG&E incurred on
10 behalf of certain LSEs in the following circumstances: (1) opt-out procurement-related costs,
11 including incremental administrative costs for customers of LSEs that have opted out of self-
12 procurement; (2) backstop procurement-related costs, including incremental administrative costs
13 for customers of LSEs that fail to provide the capacity required by D.19-11-016 and/or D.21-06-
14 035; and (3) opt-out LSEs that have left the market and no longer serve customers.

15 On January 12, 2023, the Commission issued Resolution E-5241 approving SDG&E’s cost
16 recovery to implement MCAM.¹⁸ As such, in 2023 SDG&E implemented its MCAM balancing
17 account and transferred the costs from Resource Adequacy Procurement Memorandum Account
18 (“RAPMA”) to this account.¹⁹

19 As shown in Table 9 below, SDG&E’s 2025 MCAMBA revenue requirement forecast is
20 \$0.312 million.

¹⁷ See SDG&E AL 4043-E, filed on July 18, 2022, approved January 25, 2023 and effective on January 12, 2023.

¹⁸ Resolution E-5241 at OP 1.

¹⁹ See Resolution E-5117. RAPMA is an interim memorandum account that existed to record costs until the MCAMBA was created and approved in D.22-05-015.

TABLE 9
MCAMBA REVENUE REQUIREMENT
(\$Millions of Dollars)

| No. | Component | 2025 Forecast | 2024 Forecast | Change from Prior Year |
|-----|--------------------------|---------------|---------------|------------------------|
| 1. | Load ISO Charges | | | |
| 2. | Supply ISO Revenues | | | |
| 3. | Contract Costs (non-CTC) | | | |
| 4. | RA Sales | | | |
| 5. | TOTAL | 0.312 | 0.413 | (0.101) |

XIV. SONGS UNIT 1 OFFSITE SPENT FUEL STORAGE

In this application, SDG&E requests authorization of the forecasted SONGS Unit 1 Offsite Spent Fuel Storage costs revenue requirement of \$1.285 million for 2025, which are described in Mr. Elias’s testimony. The authorized revenue requirement is tracked in SDG&E’s Nuclear Decommissioning Adjustment Mechanism account.

XV. BIOMAT NON-BYPASSABLE CHARGE BALANCING ACCOUNT (BNBCBA)

Pursuant to D.20-08-043, the purpose of the BNBCBA is to provide full recovery of the net costs of the Bioenergy Market Adjusting Tariff (“BioMAT”) procurement costs for the BioMAT program. D.20-08-043 imposes a non-bypassable charge (“NBC”) on all customers in each IOUs’ service territory. The revenues from this NBC and the net costs of the BioMAT contracts shall be recorded in the BNBCBA.

The IOUs are required to retain the BioMAT contract Resource Adequacy (“RA”) and Renewable Portfolio Standard (RPS) attributes for bundled customer compliance requirements per Public Utilities Code Section 399.20(h) and (i). The BNBCBA shall therefore reflect credits for the market value of these attributes, which will be calculated using the latest Commission approved market price benchmarks that are provided by Energy Division annually as part of the Power Charge Indifference Adjustment regulatory process.

Pursuant to D.23-11-084, each Community Choice Aggregator’s BioMAT program costs, net of Resource Adequacy and Renewable Portfolio Standard attribute costs, will be recovered

1 from customers through SDG&E's NBC included in PPP rates. As of the date of this testimony,
2 there are no costs recorded in the BNBCBA. If costs are subsequently recorded and approved by
3 the Commission during the year, then SDG&E will include the updated balance for recovery as
4 part of the October Update.

5 **XVI. SUMMARY**

6 My testimony presents and requests the Commission's approval of the following revenue
7 requirements for which SDG&E seeks recovery in this application:

- 8 • the 2025 ERRA revenue requirement forecast of \$432.299 million (which
9 includes forecasted GHG costs);
- 10 • the 2025 CTC revenue requirement forecast of \$2.113 million;
- 11 • the 2025 LGBA revenue requirement forecast of \$214.369 million;
- 12 • the 2025 TMNBC revenue requirement forecast of [REDACTED] million;
- 13 • the 2025 PABA revenue requirement forecast of \$127.722 million;
- 14 • the 2025 MCAM revenue requirement forecast of \$0.312 million;
- 15 • the 2024 forecasted year-end overcollected balance of LGBA of \$(103.124)
16 million;
- 17 • the 2024 forecasted year-end undercollected balance of ERRA of \$34.093
18 million;
- 19 • the 2024 forecasted year-end overcollected balance of PABA of \$(154.178)
20 million; and
- 21 • the 2025 SONGS Unit 1 Offsite Spent Fuel Storage costs revenue requirement
22 forecast of \$1.285 million.

23 The amounts above projected for the ERRA, PABA and LGBA year-end balances will be
24 updated in SDG&E's annual year-end process pursuant to Resolution E-5217. Finally, my
25 testimony also presents the comparison of the 2023 recorded/forecasted vs. actual year-end
26 balances in the GHG allowance revenues and expenses balancing accounts.

27 This concludes my prepared direct testimony.

1 **XVII. QUALIFICATIONS**

2 My name is LaRee Felan. My business address is 8315 Century Park Court, San Diego,
3 California 92123. I am employed by SDG&E as a Principal Accountant Supervisor in the
4 Settlements and Systems Department in the Electric and Fuel Procurement organization. My
5 responsibilities include approval of electric and gas commodity invoices, monthly journal entries,
6 and preparation and review of various compliance filings. I assumed my current position in
7 August 2023.

8 I have been employed by SDG&E since 2011 and have held various positions in Audit
9 Services, Financial & Business Planning, Supply Management, and Advanced Technology
10 Integration. My experiences include overseeing the monthly close processes, preparing financial
11 plans, performing variance analysis, and preparing regulatory filings.

12 I received a Bachelor of Science degree in Business Administration with an emphasis in
13 Finance from California State University San Marcos.

14 I have not previously testified before the California Public Utilities Commission.

DECLARATION OF LAREE FELAN

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

**DECLARATION
OF LAREE FELAN**

A.24-05-XXX

**Application of San Diego Gas & Electric Company (U 902-E)
for Approval of Its 2025 Electric Procurement Revenue Requirement Forecasts and GHG-
Related Forecasts**

I, LaRee Felan, declare as follows:

1. I am the Principal Accountant Supervisor for San Diego Gas & Electric Company (“SDG&E”). I included my Prepared Direct Testimony (“Testimony”) in support of SDG&E’s May 15, 2024, Application for Approval of Its 2025 Electric Procurement Revenue Requirement Forecasts and GHG-Related Forecasts (“Application”). Additionally, as a Principal Accountant Supervisor, I am thoroughly familiar with the facts and representations in this Declaration, and if called upon to testify I could and would testify to the following based upon personal knowledge.

2. I am providing this Declaration to demonstrate that the confidential information (“Protected Information”) in support of the referenced Testimony and Application falls within the scope of data provided confidential treatment in the IOU Matrix (“Matrix”) attached to the Commission’s Decision (“D.”) 06-06-066 (the Phase I Confidentiality decision). Pursuant to the procedure adopted in D.08-04-023, I am addressing each of the following five features of Ordering Paragraph 2 of D.06-06-066:

- that the material constitutes a particular type of data listed in the Matrix;
- the category or categories in the Matrix the data correspond to;
- that SDG&E is complying with the limitations on confidentiality specified in the Matrix for that type of data;

- that the information is not already public; and
- that the data cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.

3. The Protected Information contained in my Testimony constitutes material, market sensitive, electric procurement-related information that is within the scope of Section 454.5(g) of the Public Utilities Code¹. As such, the Protected Information is allowed confidential treatment in accordance with the Matrix, as follows:

| Location of Protected Information | Matrix Reference | Reason for Confidentiality and Retention Period |
|--|-------------------------|---|
| Amounts highlighted in yellow in Table 1 of testimony named “ERRA Revenue Requirement” | I.A.4 | Long-term Fuel (gas) Buying and Hedging Plans; confidential for three years. |
| | II.A.2 | Utility Electric Price Forecasts; confidential for three years. |
| | II.B.1 | Generation Cost Forecasts of Utility Retained Generation; confidential for three years. |
| | II.B.3 | Generation Cost Forecasts of QF Contracts; confidential for three years. |
| | II.B.4 | Generation Cost Forecasts of Non-QF Bilateral Contracts; confidential for three years. |
| Amounts highlighted in yellow in Table 3 of testimony named “LGBA Revenue Requirement” | V.C | LSE Total Energy Forecast; confidential for the front three years. |
| | II.B.1 | Generation Cost Forecasts of Utility Retained Generation, confidential for three years. |
| | II.B.3 | Generation Cost Forecasts of QF Contracts; confidential for three years. |
| | II.B.4 | Generation Cost Forecasts of Non-QF Bilateral Contracts; confidential for three years. |

¹ In addition to the details addressed herein, SDG&E believes that the information being furnished in my Testimony is governed by Public Utilities Code Section 583 and General Order 66-D. Accordingly, SDG&E seeks confidential treatment of this data under those provisions, as applicable.

| Location of Protected Information | Matrix Reference | Reason for Confidentiality and Retention Period |
|---|-------------------------|---|
| Amounts highlighted in yellow in Section VIII and Table 5 of testimony named “TMNBCA Revenue Requirement” | II.B.4 | Generation Cost Forecasts of Non-QF Bilateral Contracts; confidential for three years. |
| Amounts highlighted in yellow in Table 8 of testimony named “PABA Revenue Requirement” | II.A.2 | Utility Electric Price Forecasts; confidential for three years. |
| | II.B.1 | Generation Cost Forecasts of Utility Retained Generation; confidential for three years. |
| | II.B.3 | Generation Cost Forecasts of QF Contracts; confidential for three years. |
| | II.B.4 | Generation Cost Forecasts of Non-QF Bilateral Contracts; confidential for three years. |
| Amounts highlighted in yellow in Table 9 of testimony named “MCAMBA Revenue Requirement” | II.A.2 | Utility Electric Price Forecasts; confidential for three years. |
| | II.B.1 | Generation Cost Forecasts of Utility Retained Generation; confidential for three years. |
| | II.B.3 | Generation Cost Forecasts of QF Contracts; confidential for three years. |
| | II.B.4 | Generation Cost Forecasts of Non-QF Bilateral Contracts; confidential for three years. |
| | V.C | LSE Total Energy Forecast; confidential for the front three years. |

4. I am not aware of any instances where the Protected Information has been disclosed to the public. To my knowledge, no party, including SDG&E, has publicly revealed any of the Protected Information.

5. SDG&E will comply with the limitations on confidentiality specified in the Matrix for the Protected Information.

6. The Protected Information cannot be provided in a form that is aggregated,

partially redacted, or summarized, masked or otherwise protected in a manner that would allow further disclosure of the data while still protecting confidential information.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed this 15th day of May, 2024, at San Diego, California.

**DECLARATION OF AARON FRANZ REGARDING
CONFIDENTIALITY OF CERTAIN DATA/DOCUMENTS
PURSUANT TO D.16-08-024, *et al.***

**BEFORE THE PUBLIC UTILITIES
COMMISSION OF THE STATE OF CALIFORNIA**

**DECLARATION
OF AARON FRANZ**

A.24-05-XXX

**Application of San Diego Gas & Electric Company (U 902-E)
For Approval of Its 2025 Electric Procurement Revenue Requirement Forecasts and GHG-
Related Forecasts**

I, Aaron Franz, declare as follows:

1. I am the Manager of the Settlements & Systems department for San Diego Gas & Electric Company (“SDG&E”). I have been delegated authority to sign this declaration by Adam Pierce, Vice President of Energy Procurement & Rates. I have reviewed LaRee Felan’s Prepared Direct Testimony (“Testimony”) in support of SDG&E’s “Application for Approval of Its 2025 Electric Procurement Revenue Requirement Forecasts and GHG-Related Forecasts” (“Application”). I am personally familiar with the facts and representations in this Declaration and, if called upon to testify, I could and would testify to the following based upon my personal knowledge and/or information and belief.

2. I hereby provide this Declaration in accordance with Decisions (“D.”) 14-10-003, D.16-08-024, D.17-05-035, and D.17-09-023 to demonstrate that the confidential information (“Protected Information”) provided in the Testimony is within the scope of data protected as confidential under applicable law. In accordance with the legal authority described herein, the Protected Information should be protected from public disclosure.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct to the best of my knowledge.

Executed this 15th day of May, 2024, at San Diego.
