NRDC-SDG&E DR-02  
POWER YOUR DRIVE 2.0 (A.19-10-012)  
SDG&E RESPONSE  
DATE RECEIVED: MAY 11, 2020  
DATE RESPONDED: MAY 15, 2020**

**NRDC DATA REQUEST**

**Question 1**

Using the format provided in SDG&E’s response to [NRDC-SDG&E DR-01 Question 4](#), please provide the number of site hosts on the Rate-to-Host billing option charging no fee to charging station end-users, identifying the type of site (Multi-Unit Dwelling or Workplace), as well as the number of sites hosts on the Rate-to-Host billing option passing the utility’s published price directly through to charging station end-users.

**SDG&E Response**

Rate-to-Host site billing information is provided in the attached file “NRDC DR-02 Q1.xlsx”. The spreadsheet shows each site’s unique identifier, type of site (i.e., multi-family dwelling or workplace), VGI rate option between Rate-to-Driver (“RtD”) or Rate-to-Host (“RtH”), and additional pricing if applicable. The Rate-to-Host pricing column shows what price RtH sites charge their drivers. Sites marked “N/A” are RtD sites where all drivers pay the VGI rate.

PYD Electric Vehicle Service Provider (“EVSP”) and site hosts set the pricing that RtH drivers receive. RtH pricing information is subject to change, and modifications may be made without notifying SDG&E in accordance with the agreement between the site host and the EVSPs.

**END OF RESPONSES**
