NOTIFICATION OF SAN DIEGO GAS & ELECTRIC COMPANY'S REQUEST TO INCREASE ELECTRIC & GAS RATES NO. A.21-07-017

WHY AM I RECEIVING THIS NOTICE?

On July 30, 2021, San Diego Gas & Electric Company (SDG&E®) filed an application with the California Public Utilities Commission (CPUC) for approval to establish an interim mechanism where 50% of the costs SDG&E has incurred for wildfire mitigation would be collected in rates on an annual basis, subject to refund. The result will **increase electric and gas rates**. SDG&E requests that new rates will begin on the first of the month following the effective date of a final decision. The 2021 Revenue Requirement will be amortized over 21 months.

WHY IS SDG&E REQUESTING THIS RATE INCREASE?

- SDG&E is requesting establishment of an interim rate relief mechanism whereby 50% of wildfire mitigation expenditures incremental to those authorized for recovery in SDG&E's General Rate Case (GRC) may be authorized for recovery each year.
- This request will later be subject to a reasonableness review and refund with interest of any disallowed costs in SDG&E's next GRC or in a separate Application.

HOW COULD THIS AFFECT MY MONTHLY ELECTRIC RATES?

If the CPUC approves SDG&E's request for a wildfire interim mechanism in this application, the average bill for a typical bundled non-CARE residential customer¹ living in the inland and coastal climate zone and using 400 kilowatt-hours (kWh) per month would **increase \$1.92 (or 1.4%)** in 2022. Individual customer bills may vary. **If approved, new rates would become effective on the first of the month following the effective date of a final decision.**

¹ A bundled customer is one who takes both Utility Distribution Company (UDC) and commodity service from SDG&E, such as on rate Schedule TOU-DR1.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SDG&E's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents
